HRA	Accenture Federal Services, LLC	HHS Accelerator is a transformative initiative aimed at maximizing efficiency in the delivery of human services. The Accelerator system provides vendor management and registration, RFP management, proposal submission, evaluation and award selection, as well as budget, invoice, and payment functionality. The system serves as a common portal on which City procurement and financial staff work with their nonprofit partners. The development of HHS Accelerator is iterative to allow for ongoing expansion. Through this renewal, Accenture will build upon the existing HHS Accelerator application to enhance existing functionality. Leveraging existing code will allow the project to move quickly by either modifying existing screens or adding new ones.
