

To whom it may concern:

My name is Nick Resnicow. I am 17 years old and attend Friends Seminary in Manhattan. Recently, the topic of solitary confinement has been deeply bothering my mind to the point that I feel the need to speak my mind on the subject. It has been scientifically proven that a lack of human to human interaction leads to physiological issues, yet teens in our city are still being trapped in solitary confinement for periods longer than 15 days. With the already overwhelming amount of people of all ages being placed in solitary confinement, it is appalling to me that action has not been taken to reduce this process of torture. No one deserves solitary confinement.

Respectfully,

Nick Resnicow
