Volts (60Hz)	Phase	KW	Amps	Ground Wire Size (AWG @)	Conductor Wire Size (AWG @)	Min. Knockout Size Dia. (inches)
208	1	9.5	44	10	8	1-3/32
208	3	9.5	25	10	12	7/8
240	1	9.5	39	10	8	1-3/32
240	3	9.5	22	10	12	7/8

Note: Minimum installed clearances to combustible construction shall be in accordance with RS 14-15 of the New York City Building Code.

Terms and Conditions: That the above commercial baking ovens are accepted, under the following conditions:

1. Units shall be installed in accordance the manufacturer's instructions, and New York City Electrical, Building and Fire Codes requirements.
2. Cooking equipment shall be installed under hoods that vent to the outside and comply with Reference Standard RS 13 requirements of the New York City Building Code and have a fire suppression system complying with Reference Standards RS 13-2 and RS 13-3 with open heads and capable of simultaneous discharge and manual release. The Fire Suppression System exclusively used for cooking equipment shall be filed with the Building Department and examined and approved by the Fire Department.
3. Adequate supply of fresh air shall be provided into room or space enclosing equipment for unit ventilation and combustion requirements.
4. The installation shall not interfere with accessibility for operation and servicing.
5. For grease removal, suitable baffle type grease filters, MEA accepted, shall be installed.
6. All shipments and deliveries of such equipment shall be provided with a metal tag, suitably placed, certifying that the equipment shipped or delivered is equivalent to that tested and accepted for use, as provided for in Section 27-131 of the Building Code.
7. Approval of electrical equipment, apparatus, materials and devices shall be obtained from the Bureau of Electrical Control before installation.

Final Acceptance 12/27/08
