

Supplemental Investigation Questionnaire – Electrician

LICENSE AUTHORIZATION:

Master Electrician: An individual authorized to perform electrical work in or on any building, premises or lot in the city of New York.

Special Electrician: An individual authorized to perform electrical work as an employee of an individual, a partnership or a corporation owning, leasing or managing a building or part thereof or specific buildings, owned, leased or managed by such individual, corporation or partnership.

QUALIFICATIONS

As of today, I have the following qualifications: (Please check all that apply)

- I am at least twenty-one (21) years old;
- I am able to read and write the English language;
- I am of good moral character.
- I have at least seven and a half (7.5) years of full- time experience or the equivalent (as indicated below) within the ten (10) years prior to application of satisfactory experience in the installation, alteration and repair of wiring and appliances for electric light, heat and power in or on buildings or comparable facilities. My experience was obtained under:
 - The direct supervision of a NYC licensed Master Electrician or Special Electrician, or for applicants with experience outside NYC, the direct supervision of an individual with comparable qualifications,

AND

- While employed by a Master Electrician business as defined by the Electrical Code, or an individual, partnership or corporation owning, leasing or managing a building, buildings or parts and employing a Special Electrician to perform electrical work in/on specific buildings, lots or parts owned, leased or managed by such individual, corporation or partnership, or an individual, a partnership or a corporation deemed acceptable by the Buildings Commissioner.

Note: No more than 25 percent of such satisfactory experience shall be credited for work outside the United States unless the Buildings Commissioner determines that the licensing system and electrical code of the foreign jurisdiction is essentially similar to the licensing systems and electrical codes in the United States.

As of today, I meet the following basis for qualification: (Please check the one (1) box that applies to you)

Buildings

- I am a journeyman electrician who has at least seven and a half (7.5) years of experience working with tools on the installation, alteration and repair of wiring and appliances for light, heat and power in/on buildings or comparable facilities;
- I have a master of science (M.S.) in electrical engineering and at least two and a half (2.5) years of experience working with tools on the installation, alteration and repair of wiring and appliances for electric light, heat and power in/on buildings or comparable facilities;
- I have a bachelor of science (B.S.) in electrical engineering and at least three and a half (3.5) years of experience working with tools on the installation, alteration and repair of wiring and appliances for electric light, heat and power in/on buildings or comparable facilities;
- I am a graduate of a vocational, industrial, trade school, or apprenticeship program registered with the New York State Department of Labor, specializing in electrical wiring, installation and design or applied electricity, and at least five and a half (5.5) years of experience working with tools on the installation, alteration and repair of wiring and appliances for electric light, heat and power in or on buildings or comparable facilities;
- I completed college or university courses towards a degree in electrical or mechanical engineering, and my educational experience* combined with my practical experience working with tools on the installation, alteration and repair of wiring and appliances for light, heat and power in/on buildings or comparable facilities, equals seven and a half (7.5) years of qualifying experience.

** Such applicants can be credited with 50 percent of the curricula years he or she satisfactorily completed in the degree program towards the seven and a half (7.5) years of required experience.
