Notes: the Accepted Price.

2. Reason Codes (select one): a) <=EE: Less than or equal to Engineer's Estimate; b) <AVG2: Less than the Average of the Next Two Bidders; c) INC: Incidental Cost (defined as Overrun Value <= \$2000 AND Bid Price < 120% of EE Price); d) T&M: based on T&M. Not withstanding the arithmetic that may generate any of the above reason codes, the acceptance of any bid and/or renegotiated price must be reasonable in the judgment of the RE and the EIC.

3. Contractor's Initials and Signature at Bottom Required if any Accepted Price is less than the Bid Price. An Accepted Price is either a Renegotiated Unit Price or the Accepted Original Unit Bid Price.

\*\*\* If Contractor and Agency cannot agree on an Accepted Price, Contractor agrees to perform the Additional Work on Time and Material basis pursuant to Article 26 but in no event at a price higher than the Bid Price. In this case, enter "T&M" into the Accepted Price Column for that Item. Payment will be made pursuant to Article 26 of the Agreement.
