## BUREAU OF CHILD CARE

### NOTICE OF ANNUAL SURVEY OF PAINT CONDITION IN GROUP CHILD CARE SERVICE

To All Group Child Care Operators:

The New York City Health Code §47.63, which was amended to include new provisions required by Local Law 1 of 2004 (the Childhood Lead Poisoning Prevention Act of 2003), requires all operators of group child care services to complete an “Annual Survey of Paint Condition for Group Child Care Service” containing lead-based paint or paint of unknown lead content.

Every year, operators of such child care services must:

- Survey the paint condition of building components in interior rooms and areas of the group child care service.
- Record the results of the observations on a form approved by the New York City Department of Health and Mental Hygiene (DOHMH).
- Submit the completed survey to the DOHMH Bureau of Child Care.

The following document contains information about the annual survey and the forms that you can use to submit the annual survey to the DOHMH:

- [Annual Survey of Paint Condition for Group Child Care Service](#)

If you have questions, please review the [Frequently Asked Questions About the Annual Survey of Paint Condition for Group Child Care Service](#). For additional assistance, contact the Bureau of Child Care Borough Office.

Thank you for your cooperation.
