

Notice of a Negotiated Acquisition Extension
Contractor: VitalChek Network, Inc.
PIN 08VR200300R0X00

The Bureau of Vital Statistics requests a six month extension of the existing VitalChek Apply and Pay for Vital Records by Credit Card, Internet, Fax and Telephone Contract which expires on May 31, 2008. The Bureau has a new RFP for these services that has been posted on the City Record and DOHMH's Web site on February 6, 2008. Bids were submitted by March 5, 2008. The six months extension prevents a time gap between contracts that provide mission critical services. It also prevents a severe reduction in customer service to 15,000 birth certificate customers per month and allows the minimum one month set-up time required by a new vendor to provide these services.
