Subject: Proposers of Trans-Fat Ban Should resign immediately

Dear Ms. Bryant:

It is necessary to brief and to the point on this issue of banning foods prepared in food service establishments using artificial trans fats from New York City resaurants.

Proposal: In response to the proposed bank, I propose that the individuals on the health board for NYC responsible for proposing the ban on preparation and serving of foods that contain "artificial" trans fat should resign immediately.

Here are the reasons:

-It is the right of New Yorkers, Businessmen and Tourists to take the actions of their choice that do not then cause them immediate harm to themselves or others. That includes consuming the food of their choice, even if it might kill them many years from now. This is called Liberty. Once artificial Trans Fat has been proven to be the equivalent of consuming mercury or lead, or of cooking food in rancid poison ivy oil, then it becomes a safety issue. This is not.

-This act is an unreasonable burden on restaurant owners in the changing of recipes, disclosure of contents of food, etc., and will have unintended effects that were not considered, however true the facts behind the ban. At the very minimum, prices will have to be increased, marginal restaurants will be forced out of business, with only chain restaurants, not representing the character of New York, being able to survive, should they choose to remain in New York at all. It will actually have the opposite effect intended with regard to banning junk food; rather, it will put pre-packaged, high chloolesterol products onto the menu. (Pass the chips please). With regard to those marginal restaurants and food establishments being put out of business by this law, this proposed rule is cynical and mean.

In Summary: This proposed law is a blatant, in-your-face act of government oppression. This oversteps the bounds of government and its role in protecting human life, human choice, which once was called Liberty, and human property.

Alternative Proposal: Strike this item from the agenda immediately and table it.

Chris Walker
Austin, Texas

Resolution Comments - Support proposal to add §81.08 and §81.50 to Article 81 of the NYC Health Code

From: cecil nelson <thebosscecil@sbcglobal.net>
To: <resolutioncomments@health.nyc.gov>
Date: 10/20/2006 7:27 PM
Subject: Support proposal to add §81.08 and §81.50 to Article 81 of the NYC Health Code

Dear Ms. Bryant,

Please include my comments as testimony in support of the proposals to add § 81.08 and §81.50 to Article 81 of the NYC Health Code. I understand that § 81.08 would restrict the serving of products containing artificial trans fats in NYC restaurants. §81.50 would require restaurants that make nutritional information available to post caloric information for individual items on menu boards and menus. This would enable consumers to make informed choices among such items at the time of ordering.

It's about time that america started doing more for our health. we need more. Thanks for taking a stand on trans-fat. .

Sincerely,

Dear Ms. Bryant,

Please include my comments as testimony in support of the proposals to add § 81.08 and §81.50 to Article 81 of the NYC Health Code. I understand that § 81.08 would restrict the serving of products containing artificial trans fats in NYC restaurants. §81.50 would require restaurants that make nutritional information available to post caloric information for individual items on menu boards and menus. This would enable consumers to make informed choices among such items at the time of ordering.

Sincerely,

Name : Christina Fahy

Dear Ms. Bryant,

Please include my comments as testimony in support of the proposals to add § 81.08 and §81.50 to Article 81 of the NYC Health Code. I understand that § 81.08 would restrict the serving of products containing artificial trans fats in NYC restaurants. §81.50 would require restaurants that make nutritional information available to post caloric information for individual items on menu boards and menus. This would enable consumers to make informed choices among such items at the time of ordering.

Please stop the use of trans fat. It is killing us. .

Sincerely,

Name : Barbara Collette

There really is no reason trans fats or any of the artificial ingredients that are economically driven, and not nature or health driven. Trans Fats, High-Fructose Corn Syrup, Mono-Sodium Glutamate, Aspartane all should be banned! There was no need for their invention in the first place. .

From: Marlo Cook <TisMsMarlo@aol.com>
To: <resolutioncomments@health.nyc.gov>
Date: 10/20/2006 11:20 AM
Subject: Support proposal to add §81.08 and §81.50 to Article 81 of the NYC Health Code

Dear Ms. Bryant,

Please include my comments as testimony in support of the proposals to add § 81.08 and §81.50 to Article 81 of the NYC Health Code. I understand that § 81.08 would restrict the serving of products containing artificial trans fats in NYC restaurants. §81.50 would require restaurants that make nutritional information available to post caloric information for individual items on menu boards and menus. This would enable consumers to make informed choices among such items at the time of ordering.

Trans fat isn't recognizable to the human body therefore rendering it insoluble. It is collected in the mucoid layers of the digestive tract which serves to protect the body from foreign substances. This mucoid layer then builds up and eventually causes blockages and toxins responsible for major diseases. This is dangerous because most people do not know how to cleanse themselves of this mucoid build-up. It is a crime that something so toxic to the body has been approved for human consumption. It is a downright lie that labels can state that a product contains no trans fat but yet it is still listed in the ingredients under hydrogenated or partially hydrogenated oil of some sort. There is absolutely no need whatsoever for trans fats to find their way in to the food we consume except for greed. I fully support the decision to remove all trans fats from not only NYC restaurants but from all packaged foods everywhere. .

Sincerely,

Name : Marlo Cook

Subject: Support proposal to add §81.08 and §81.50 to Article 81 of the NYC Health Code

Dear Ms. Bryant,

Please include my comments as testimony in support of the proposals to add § 81.08 and §81.50 to Article 81 of the NYC Health Code. I understand that § 81.08 would restrict the serving of products containing artificial trans fats in NYC restaurants. §81.50 would require restaurants that make nutritional information available to post caloric information for individual items on menu boards and menus. This would enable consumers to make informed choices among such items at the time of ordering.

Sincerely,

Name : Ron Caputo

I understand that § 81.08 would restrict the serving of products containing artificial trans fats in NYC restaurants. §81.50 would require restaurants that make nutritional information available to post caloric information for individual items on menu boards and menus. This would enable consumers to make informed choices among such items at the time of ordering.

Genetically modified foods should also be banned, as well as aspartame, both very dangerous. Rumsfeld's agenda as well as Monsanto's are based on greed and a lack of concern for the health of the people unfortunate enough to trust them and eat and drink their frankenstein creations. Let's protect the health of our citizens and the rest of the planet. GMO potatoes and corn are killing butterflies! What do you think they are doing to you. GMO tomatoes have fish DNA in them! Please stop the madness. Aspartame turns into formaldehyde in our systems, my daughter's chemistry teacher tells every class it causes blindness, it is wood alcohol. Just drink water, without the poisonous flouride of course. .

Resolution Comments - Support proposal to add §81.08 and §81.50 to Article 81 of the NYC Health Code

From: Lauren Kenney <lauren.g.kenney@us.pwc.com>
To: <resolutioncomments@health.nyc.gov>
Date: 10/20/2006 10:07 AM
Subject: Support proposal to add §81.08 and §81.50 to Article 81 of the NYC Health Code

Dear Ms. Bryant,

Please include my comments as testimony in support of the proposals to add § 81.08 and §81.50 to Article 81 of the NYC Health Code. I understand that § 81.08 would restrict the serving of products containing artificial trans fats in NYC restaurants. §81.50 would require restaurants that make nutritional information available to post caloric information for individual items on menu boards and menus. This would enable consumers to make informed choices among such items at the time of ordering.

Sincerely,

Name : Lauren Kenney

I'm a personal trainer and it's hard enough that we have to avoid almost all of the middle aisles in the grocery store because almost every packaged food has trans fats. How do we know what's in the food in the restaurants? Are we interested in people's health or the profits?!! .

Subject: Support proposal to add §81.08 and §81.50 to Article 81 of the NYC Health Code

Dear Ms. Bryant,

Please include my comments as testimony in support of the proposals to add § 81.08 and §81.50 to Article 81 of the NYC Health Code. I understand that § 81.08 would restrict the serving of products containing artificial trans fats in NYC restaurants. §81.50 would require restaurants that make nutritional information available to post caloric information for individual items on menu boards and menus. This would enable consumers to make informed choices among such items at the time of ordering.

Please ban transfat and make New York a symbol of health for others to follow .

Sincerely,

Name : jeanette bronée

Dear Ms. Bryant,

Please include my comments as testimony in support of the proposals to add § 81.08 and §81.50 to Article 81 of the NYC Health Code. I understand that § 81.08 would restrict the serving of products containing artificial trans fats in NYC restaurants. §81.50 would require restaurants that make nutritional information available to post caloric information for individual items on menu boards and menus. This would enable consumers to make informed choices among such items at the time of ordering.

It is poposterous to keep a toxic ingredient like trans fats on the market when there are replacement ingredients cooks and restaurants can use to improve the nutrion value of their food. For the people who are agaisnt banning are simply not educating themselves enough about the problems trans fats cause. We need to take control of our health and our bodies. If the government is going to ban something that will never provide health benefits, and only make us more likely to suffer from heart disease, cancer, and diabetes, then thank you! I think another great campaign would be to thoroughly educate people about the cons of trans fats on comeercials and billboards, the messages that are thrown into our subconscious every day. .

Some cyclic fatty acids inhibit the desaturation of stearic acid to oleic acid. This alters membrane permeability and leads to coronary artery disease. So care should be taken while selecting foodstuff. Lots of fibres in food is needed to balance transfat and one needs to work out regularly with exercise. .

I understand that § 81.08 would restrict the serving of products containing artificial trans fats in NYC restaurants. §81.50 would require restaurants that make nutritional information available to post caloric information for individual items on menu boards and menus. This would enable consumers to make informed choices among such items at the time of ordering.

Sincerely,

Hi Ms. bryant, I enjoy dining at the fine rrestaurants in your city. The thought of doing so without consuming trans fats warms my heart. Please realize that the cities of the world look to New York as the ultimate trend setter. New Yorkers could start a universal movement to better health. .

Sincerely,
