Job Posting Notice**

<b>Civil Service Title:</b> Computer Specialist (Software)	<b>Level:</b> 03
<b>Title Code No:</b> 13632	<b>Salary:</b> \$81,290/\$93,484 - \$100,000
<b>Business Title:</b> Java Developer	<b>Work Location:</b> Brooklyn, NY
<b>Division/Work Unit:</b> Application Development Management	<b>Number of Positions:</b> 1
<b>Job ID:</b> 203806	<b>Hours/Shift:</b> Day - Due to the necessary technical support duties of this position in a 24/7 operation, candidate may be required to work various shifts such as weekends and/or nights/evenings.

**Job Description**

DoITT provides for the sustained, efficient and effective delivery of IT services, infrastructure and telecommunications to enhance service delivery to New York City's residents, businesses, employees and visitors. As the City's technology leader, DoITT is responsible for maintaining the foundational IT infrastructure and systems that touch every aspect of City life from public safety to human services, from education to economic development crossing the full spectrum of governmental operations.

The role of Java Developers within DoITT ensures the success of new systems and applications across New York City. They build enterprise applications, and mentor junior staff developers by setting standards and best practices. In a complex technical environment, it is also the role of the developer to understand the intricacies and the overarching architectures of such an environment. For Enterprise Application Development, Java development plays a critical role in the delivery of new systems and requires the use of highly skilled Java staff.

The Java Developer will be part of the APT team and play a crucial role in enhancing and supporting the application. In addition, this resource will assist in designing and developing complex layers of the other systems.

The successful candidate will serve as a Java Developer reporting to the Application Development Management Division.

Responsibilities will include:

- Design and develop server-side components for internal and external applications using Java;
- Work with business analyst and team members to determine, document, and estimate project tasks;
- Communicate status both verbally and in writing to Technical Lead;
- Document and communicate deployment instructions to support team;
- And participate in the development of special Java projects and initiatives as assigned.

**Minimum Qualification Requirements**

(1) A baccalaureate degree from an accredited college, including or supplemented by twenty-four (24) semester credits in computer science or a related computer field and two (2) years of satisfactory full-time software experience in designing, programming, debugging, maintaining, implementing, and enhancing computer software applications, systems programming, systems analysis and design, data communication software, or database design and programming, including one year in a project leader capacity or as a major contributor on a complex project;

or

(2) A four-year high school diploma or its educational equivalent and six (6) years of full-time satisfactory software experience as described in "1" above, including one year in a project leader capacity or as a major contributor on a complex project;

or

(3) A satisfactory combination of education and experience that is equivalent to (1) or (2) above. College education may be substituted for up to two years of the required experience in (2) above on the basis that sixty (60) semester credits from an accredited college is equated to one year of experience. A masters degree in computer science or a related computer field may be substituted for one year of the required experience in (1) or (2) above. However, all candidates must have a four year high school diploma or its educational equivalent, plus at least one (1) year of satisfactory full-time software experience in a project leader capacity or as a major contributor on a complex project.

**NOTE:** In order to have your experience accepted as Project Leader or Major Contributor experience, you must explain in detail how your experience qualifies you as a project leader or as a major contributor. Experience in computer operations, technical support, quality assurance (QA), hardware installation, help desk, or as an end user will not be accepted for meeting the minimum qualification requirements.

**Special Note**

To be eligible for placement in Assignment Level IV, in addition to the Qualification Requirements stated above, individuals must have one year of satisfactory experience in a project leader capacity or as a major contributor on a complex project in data administration, database management systems, operating systems, data communications systems, capacity planning, and/or on-line applications programming.

**Preferred Skills**

The successful candidate should possess the following:

- 5+ years of development experience with at least 2 years of hands-on experience developing enterprise web applications using Java;
- Strong knowledge of Java EE 1.5+, SQL databases, and web services;
- Experience with EMC Documentum, Microsoft SQL Server, Microsoft SQL Server Integration Services, FICO Blaze Advisor, WebLogic, and Ant is a plus.

**To Apply**

Please note that taking and passing a civil service exam for the civil service title listed above will be necessary to maintain employment with the City of New York.
