Department of Information Technology & Telecommunications
Job Posting Notice**

Civil Service Title: Certified IT Administrator (LAN)	Level: 04
Title Code No: 13641	Salary: \$87,203/\$100,284 - \$125,000
Business Title: Migration Technical Lead	Work Location: Brooklyn, NY
Division/Work Unit: IT Services	Number of Positions: 2
Job ID: 203899	Hours/Shift: Day - Due to the necessary technical support duties of this position in a 24/7 operation, candidate may be required to work various shifts such as weekends and/or nights/evenings.

Job Description

DoITT provides for the sustained, efficient and effective delivery of IT services, infrastructure and telecommunications to enhance service delivery to New York City's residents, businesses, employees and visitors. As the City's technology leader, DoITT is responsible for maintaining the foundational IT infrastructure and systems that touch every aspect of City life from public safety to human services, from education to economic development crossing the full spectrum of governmental operations.

The successful candidate will serve as a Migration Technical Lead reporting to the IT Services Division. Responsibilities will include: Manage all technical aspects of Data Center migration phases (Assessment, Planning, & Execution) as well as, develop technical solutions and migrate Agency data centers into a DoITT environment; utilize knowledge of existing DoITT environments and how to provide the same service; conduct requirements gathering and analysis, and developing technical requirements, migration strategies, and architecture designs; provide deployment and problem resolution and manage the project lifecycle for all applications being transitioned to DoITT (Design, Build, Deployment and Operational Transition); interface with agency technical subject matter experts and drive to conclusion any technical open issues; and handle special projects and initiatives as assigned.

Minimum Qualification Requirements

The successful candidate must possess one of the following professional/vendor certification(s):

VCP certification-VMware 5 Certification

VMware Certified Advanced Professional 5 – Data Center Administration (VCAP5-DCA)

VMware Certified Advanced Professional 5 – Data Center Design (VCAP5-DCD)

In addition, all candidates must have the following:

1. A baccalaureate degree from an accredited college, and two years of satisfactory full-time (not classroom based) experience in local area network planning, design, configuration, installation, troubleshooting, integration, performance monitoring, maintenance, enhancement, and security management;

or

2. A four-year high school diploma or its educational equivalent and six years of satisfactory fulltime (not classroom based) information technology experience of which at least 2 years must have been as described in "1" above;

or

3. A masters degree in computer science or a related field from an accredited college may substitute for one year of experience. However, all candidates must have at least one year of satisfactory (not classroom based) full-time information technology experience as described in "1" above.

Note:

In addition to meeting the minimum Qualification Requirements: Incumbents may be required to update existing and/or obtain additional professional industry-standard certification(s) for current and future technical environment(s) in which they may be assigned to work, as determined by the employing agency.

Preferred Skills

The successful candidate should possess the following: 5+ years of experience within a related role in troubleshooting, analyzing and problem solving issues with Windows virtual servers; experience working with various versions of Windows & RHEL Servers, exchange and/or SQL experience a plus; knowledge of TCP/IP network and switch and load balancer configuration; strong problem-solving and troubleshooting skills to resolve issues on all tiers, VSAN and EMC Virtual Storage Integrator, experience in DNS, DHCP, Remote Desktop Session Host, DFS, and Microsoft Failover Clusters; experience in VMWare (ESXi) support; experience in vCenter Operations Manager, and SRM; able to effectively communicate with all in scope agencies and their development teams, accurately plan, develop, stage, suggest architecture optimizations, and finally execute application migrations; SME level expertise in VMWare, Microsoft, and Oracle; executing technical discovery, design, and deployment deliverables for VM migrations and performance management of vSphere/ESXi 5.1 5.5 and 6.0 environments across several physical locations; extensive technical background covering all aspects of data center migration and hosting; knowledge in network and SAN, fiber channel switch management, Virtual Fabrics, DCC along with basic zoning concepts; knowledge of NetApp and Hitachi storage: knowledge of Symantec NetBackUp; knowledge of standard network protocols, load balancing and firewalls; experience with remote access and file transfer tools and V2V and P2V migration tools (Platespin, VConverter, Solaris P2V).

To Apply

Please note that taking and passing a civil service exam for the civil service title listed above will be necessary to maintain employment with the City of New York.
