

Identity Management Security Policy

The Policy

All access to City of New York systems must be authorized and based upon individual identification and authentication.

Agency Responsibility

- 1) Each agency is responsible for the management of its user identities. This includes identity validation/registration, authentication, authorization, provisioning/de-provisioning and management of identities.
- 2) Management approval is required before a user is authorized to use any City computing resources.
- 3) Users who are not City employees, but who are in a current contractual relationship with the City may have access to City computing resources if they have a valid non-disclosure agreement in effect and their sponsor approves their access.

Identity Life Cycle

- 4) Users must be positively and individually identified and validated prior to being permitted access to any City computing resource.
- 5) Users will be authenticated at a level commensurate to the data classification of the information being accessed.
- 6) Access permissions must be defined in accordance with a user's actual functional work requirements.
- 7) User accounts will be created and de-provisioned in a timely manner. Inactive user accounts will be de-provisioned according to the Citywide Information Security Password Policy.

Citywide Identity Store

- 8) Each agency must establish connectivity to the DoITT managed Enterprise Directory.
- 9) Each agency is responsible for managing their identities within the DoITT managed Enterprise Directory/Identity Vault.
- 10) All applications used by multiple agencies or which support external users are required to utilize the DoITT managed Enterprise Directory for authentication.
- 11) Applications will be required to participate in the consolidation of external identities to the DoITT managed Enterprise Directory.

Password Controls

- 12) The password settings of user accounts must comply with the Citywide Information Security Password Policy.
