To the Mayor and City Council:

Rahul Merchant
Commissioner
Chief Information and
Innovation Officer

Pursuant to section two of Local Law 11 of 2012 (§23-506 of the Administrative Code of the City of New York), the Department of Information Technology and Telecommunications (DoITT) hereby submits the NYC Open Data Plan.

This plan includes the lists submitted to DoITT of all data sets under control of a City agency on or after March 7, 2012 that have been deemed by the controlling Agency to fall under the definition of a “Public data set” as defined in the law. A summary description and anticipated date of publication for each public data set is included in the agency tables that are part of this report.

The NYC Open Data Plan has been created following the guidelines set forth in Local Law 11 of 2012 and the subsequent Technical Standards Manual (itself created in compliance with Local Law 11), and is publicly available via the City’s official website, *NYC.gov*.

Much like the data it catalogues, this plan will continuously evolve and be accordingly updated no later than July 15, 2014, and every July 15 thereafter.

Respectfully Submitted,

Rahul N. Merchant
Commissioner
Chief Information & Innovation Officer

Introduction:

The City of New York has already opened up more than a thousand City agency data sets through the [NYC Open Data](#) public web site. This *NYC Open Data Plan* lists other City data sets that are not yet available, but that will be added to the NYC Open Data portal in the future. This plan is available on the nyc.gov, and will be updated no later than July 15, 2014, and every July 15th thereafter.

The *NYC Open Data Plan* has been prepared in accordance with Local Law 11 of 2012 to make the operation of City government more transparent, accessible, and accountable to the public. Making City data sets available online using open standards will allow the public to assist in the development of analyses, applications and other tools to improve City government and the lives of New Yorkers.

The *NYC Open Data Plan* is intended to be a comprehensive accounting of the Public Data sets maintained by the City of New York as well as a commitment by the City to make those data sets available by a date certain. The inaugural edition of this plan includes approximately 440 public data sets, as well as the release date and update frequency of each set. This plan is a living document and will be updated as additional data sets are identified and released. To that end, we request your feedback on the plan and assistance in identifying any additional data sets that might be appropriate for release.

To submit feedback on the *NYC Open Data Plan*, please send correspondence to: nycdatasupport@doitt.nyc.gov.

To suggest data for inclusion on the NYC Open Data portal, please visit: <https://data.cityofnewyork.us/nominate>.
