FINANCE
NEW YORK

General Corporation Tax Return For fiscal years beginning in 1999 or for calendar year **1999**

Highlights of Recent Tax Law Changes for Corporations

- The definition of "corporation" for purposes of the New York City General Corporation Tax has been amended to include an association and a publicly traded partnership taxable as a corporation for federal income tax purposes. Admin. Code §11-602(1).
- For years beginning after 6/30/96 and before 7/1/98, only 75 percent of salaries and compensation of officers, other than officers who are also greater than 5% stockholders, is required to be added back in calculating the alternative income plus compensation tax base. For taxable years beginning after 6/30/98 and before 7/1/99, only 50 percent of that compensation must be added back and, for taxable years beginning after 6/30/99, none of that compensation is added back. For taxable years beginning after 6/30/98, the statutory exclusion has been increased from \$30,000 to \$40,000. Admin. Code §11-604.1(H).
- For taxable years beginning on or after January 1, 1998, an alien corporation is not subject to the GCT if its activities in the City are limited solely to investing or trading in stocks and securities for its own account within the meaning of IRC §864(b)(2)(A)(ii) or investing or trading in commodities for its own account within the meaning of IRC §864(b)(2)(B)(ii) or any combination of these activities. NYC Admin. Code §11-603.2-a.
- As a result of a recent court decision, taxpayers are allowed to use ACRS or MACRS depreciation for property placed in service outside New York in years beginning after 1984 and before 1994 under certain circumstances. For more information see the separate "Addendum to Instructions for Forms Relating to Depreciation for Property Placed in Service Outside New York after 1984 and before 1994" included with these materials.

CORPORATION DEFINED

For taxable years beginning in 1996 and thereafter, unincorporated associations and publicly-traded partnerships taxable as corporations for federal income tax purposes under IRC §7701(a)(3) and §7704 are subject to the General Corporation Tax and not the Unincorporated Business Tax. Eligible entities having a single owner disregarded as a separate entity under the "check-the-box" rules and treated as either a sole proprietorship or a branch for federal tax purposes will be similarly treated for City tax purposes. See the Addendum to Instructions included with these forms for additional information. **Unincorporated entities that were subject to the Unincorporated Business Tax for tax years beginning in 1995 and that are taxable as corporations for federal income tax purposes that elected to continue to be subject to the Unincorporated Business Tax for years after 1995 are not subject to the GCT. For cooperative housing corporations as defined in the Internal Revenue Code, the rate of tax on capital is 4/10 mill instead of 1 1/2 mills. LINE 2 - OFFICERS' COMPENSATION

For taxable years beginning after 6/30/96 and before 7/1/98, include in the alternative tax computation 75% of all salaries and other compensation, including commissions, paid to elected or appointed officers of the corporation, other than officers who are also stockholders owning more than 5% of the corporation's stock. For taxable years

beginning after 6/30/98 and before 7/1/99, include only 50% of such compensation in the calculation. For taxable years beginning after 6/30/99, do not include any of that compensation. For all years include in the alternative tax computation 100% of all salaries and compensation paid to stockholders holding more than 5% of the corporation's stock, as deducted on the federal return and required to be reported in Schedule D for the taxable year.

In determining whether a stockholder owns more than 5% of the issued capital stock, include all classes of stock, issued and outstanding, voting and nonvoting stock.

An elected or appointed officer includes the chairman, president, vice-president, secretary, assistant secretary, treasurer, assistant treasurer, comptroller and also any other officer, irrespective of title, who is charged with and performs any of the regular functions of an officer. A director is not an elected or appointed officer unless he performs duties ordinarily performed by an officer. However, all compensation received by an officer from the corporation **in any capacity**, including director's fees, must be included.

Example:

A real estate corporation's appraisers have the title of vice-president but do not hold management responsibilities. Their salaries and compensation must be included in the alternative tax base.

LINE 3

A net operating loss carryforward or carryback may not reduce federal taxable income to less than zero.

LINE 4

For taxable years beginning on or after 7/1/97 and before 7/1/98, enter \$30,000. For taxable years beginning on or after 7/1/98, enter \$40,000. (If the return does not cover an entire year, exclusion must be prorated based on the period covered by the return.)

FIRST INSTALLMENT PAYMENT

Do not use this line if an application for automatic extension (NYC-6) has been filed. The payment of the amount shown at line 6b is required as payment on account of estimated tax for the 1999 calendar year, if a calendar year taxpayer, or for the tax-

- b) If this form is filed more than 60 days late, you will be subject to the **minimum late filing penalty**. This penalty is the lesser of (1) \$100 or (2) 100% of the amount required to be shown on the form (less any payments made by the due date or credits claimed on the return).
- c) A **late payment penalty** is assessed if you fail to pay the tax shown on this form by the prescribed filing date, unless the failure is due to reasonable cause. For every month or partial month that your payment is late, add to the tax (less any payments made) 1/2%, up to a total of 25%.
- d) The total of the additional charges in a and c may not exceed 5% for any one month except as provided for in b.

poses.

Net operating losses incurred in taxable periods ending after December 31, 1975, and on or before June 30, 1989, may generally be carried back to the preceding three taxable years. Beginning with losses sustained during taxable years ending after June 30, 1989, the New York City net operating loss deduction shall be determined as if the taxpayer had elected to relinquish the carryback provision except for the first \$10,000 of each of such losses, which may be carried back to the three preceding years (two years for losses incurred in taxable years beginning after August 5, 1997.) Losses which are not permitted to be carried back may generally be carried forward and used to offset income for the period permitted for Federal tax purposes, generally 15 years subsequent to the loss year (20 years for losses incurred in taxable years beginning after August 5, 1997). In addition, any portion of the \$10,000 NOL permitted to be carried back but not used may be carried forward.

Do not attach or mail a Form NYC-8CB or Form NYC-8 with the tax return. SCHEDULE C

Total Capital

LINES 1 THROUGH 5 AVERAGE VALUE OF TOTAL ASSETS

To determine the value of your assets for business capital purposes, you must include real property and marketable securities at fair market value. The fair market value of any asset is the price, without any encumbrance, at which a willing seller, not compelled to sell, will sell, and a willing buyer, not compelled to buy, will buy. The value of all other property must be included at the value shown on the taxpayer's books and records in accordance with generally accepted accounting principles (GAAP).

On Schedule C, lines 1 through 5, enter the values at the beginning of the year in column A and at the end of the year in column B. Enter the average value in column C. Attach a schedule showing the computation of the average value.

On line 2 enter the value of real property and marketable securities included in line 1. Enter on line 4 the fair market value of real property and marketable securities.

Average value is generally computed on a quarterly basis where the taxpayer's usual accounting practice permits. A more frequent basis may be used. If the taxpayer's usual accounting practice does not permit computation of average value on a quarterly or more frequent basis, a semiannual or annual basis may be used if no distortion of average values results.

With respect to real property owned by the taxpayer and located within New York City, the fair market value is presumed to be not less than the estimated market value of the property on the Final Assessment Roll of the City for the period covered by the return or the most recent sales price, whichever is greater.

LINE 6

TOTAL LIABILITIES

Title 11, Chapter 6 of the NYC Administrative Code permits the deduction of all liabilities (both long and short term) when computing business capital for purposes of the tax measured by capital. Use the same method of averaging as is used in determining average value of total assets.

SCHEDULE E
