- 1) A thrift institution must exclude from the computation of its entire net income any amount allowed as a deduction for federal income tax purposes pursuant to section 166, 585 or 593 of the Internal Revenue Code.
- 2) a thrift institution shall be allowed as a deduction in computing entire net income the amount of a reasonable addition to its reserve for bad debts. This amount shall be equal to the sum of:
 - (a) the amount determined to be a reasonable addition to the reserve for losses on nonqualifying loans, computed in the same manner as is provided with respect to additions to the reserves for losses on loans of banks under paragraph one of subdivision (i) of this section, plus
 - (b) the amount determined by the taxpayer to be a reasonable addition to the reserve for losses on qualifying real property loans, but such amount shall not exceed the amount determined under paragraph four or five of Ad. Code §11-641(h), whichever is the larger, but the amount determined under Ad. Code §11-641(h)(3)(b) shall in no case be greater than the larger of
 - (i) the amount determined under paragraph four, or
 - (ii) the amount which, when added to the amount determined under clause (a) of this paragraph 2, equals the amount by which twelve percent of the total deposits or withdrawable accounts of depositors of the taxpayer at the close of such year exceeds the sum of its surplus, undivided profits and reserves at

the beginning of such year (taking into account any portion thereof attributable to the period before the first taxable year beginning after December 31st, 1951).

The taxpayer must include in its tax return for each year a computation of the amount of the addition to the bad debt reserve determined under Ad Code §11-641(h). The use of a particular method in the return for a taxable year is not a binding election by the taxpayer.

- 3)
 - (a) Subject to clauses (b) and (c) of this paragraph 3, the amount determined under this paragraph for the taxable year shall be an amount equal to 32% of the entire net income for such year.
 - (b) The amount determined under clause (a) of this paragraph shall be reduced (but not below zero) by the amount determined under clause (a) of paragraph 2.
 - (c) The amount determined under this paragraph shall not exceed the amount necessary to increase the balance at the close of the taxable year of the reserve for losses on qualifying real property loans to 6% of such loans outstanding at such time.
 - (d) For purposes of this paragraph, entire net income shall be computed
 - (i) by excluding from income any amount included therein by reason of clause (b) of paragraph 7.
 - (ii) without regard to any deduction allowable for any addition to the reserve for bad debts and
 - (iii) by excluding from income an amount equal to the net gain for the taxable year arising from the sale or exchange of stock of a corporation or of obligations the interest on which is excludable from gross income under section 103 of the Internal Revenue Code.
 - (iv) Whenever a thrift institution is properly includable in a combined return, entire net income, for purposes of this paragraph, shall not exceed the lesser of the thrift institution’s separately computed entire net income as adjusted pursuant to clauses (i) through (iii) above or the combined group’s entire net income as adjusted pursuant to clauses (i) through (iii).
- 4) The amount determined under this paragraph for the taxable year shall be computed in the same manner as is provided under paragraph 1 of subdivision
 - (i) of Ad. Code §11-641 with respect to additions to reserves for losses on loans of

banks, provided, however, that for any taxable year beginning after 1995, for purposes of such computation, the base year shall be the later of (a) the last taxable year beginning in 1995 or (b) the last taxable year before the current year in which the amount determined under the provisions of clause (b) of paragraph 3 exceeded the amount allowable under this paragraph.

- 5) (a) (i) Each thrift institution shall establish and maintain a New York reserve for losses on qualifying real property loans, a New York reserve for losses on nonqualifying loans and a supplemental reserve for losses on loans. Such reserves shall be maintained for all subsequent taxable years that Ad Code §11-641(h) applies to the taxpayer.
- (ii) Such reserves shall be treated as reserves for bad debts, but no deduction shall be allowed for any addition to the supplemental reserve for losses on loans.
- (iii) Except as noted below, the balances of each such reserve at the beginning of the first day of the first taxable year beginning after December 31, 1995 shall be the same as the balances maintained for federal income tax purposes in accordance with section 593(c)(1) of the Internal Revenue Code as in existence on December 31, 1995 for the last day of the last tax year beginning before January 1, 1996, a taxpayer which maintained a New York Reserve for loan losses on qualifying real property loans in the last tax year beginning before January 1, 1996 shall have a continuation of such New York reserve balance in lieu of the amount determined under the preceding sentence.
- (iv) Notwithstanding clause (ii), any amount allocated to the reserve for losses on qualifying real property loans pursuant to section 593(c)(5) of the Internal Revenue Code as in effect immediately prior to the enactment of the Tax Reform Act of 1976 shall not be treated as a reserve for bad debts for any purpose other than determining the amount referred to in clause (b) of paragraph 2, and for such purpose such amount shall be treated as remaining in such reserve.
- (b) Any debt becoming worthless or partially worthless in respect of a qualifying real property loan shall be charged to the reserve for losses on such loans and any debt becoming worthless or partially worthless in respect of a nonqualifying loan shall be charged to the

reserve for losses on nonqualifying loans, except that any such debt may, at the election of the taxpayer, be charged in whole or in part to the supplemental reserve for losses on loans.

- (c) The New York reserve for losses on qualifying real property loans shall be increased by the amount determined under clause (b) of paragraph 2 and the New York reserve for losses on nonqualifying loans shall be increased by the amount determined under clause (a) of paragraph 2.
- 6) (a) The term "qualifying real property loan" shall mean any loan secured by an interest in improved real property or secured by an interest in real property which is to be improved out of the proceeds of the loan. Such term shall include any mortgage-backed security which represents ownership of a fractional undivided interest in a trust, the assets of which consist primarily of mortgage loans, provided that the real property which serves as security for the loans is (or from the proceeds of the loan, will become) the type of property described in clauses (i) through (v) of clause (b) of paragraph 1 under the definition of a "thrift institution". However, such term shall not include:
 - (i) any loan evidenced by a security (as defined in section 165(g)(2)(c) of the Internal Revenue Code);
 - (ii) any loan, whether or not evidenced by a security (as defined in such section 165(g)(2)(c)), the primary obligor of which is (i) a government or political subdivision or instrumentality thereof,
 - (ii) a banking corporation, or
 - (iii) any corporation 65% or more of whose voting stock is owned or controlled, directly or indirectly, by the taxpayer or by a bank holding company that owns or controls, directly or indirectly, 65% or more of the voting stock of the taxpayer;
 - (iii) any loan, to the extent secured by a deposit or share of the taxpayer; or
 - (iv) any loan which, within a 60-day period beginning in one taxable year of the creditor and ending in its next taxable year, is made or acquired and repaid or disposed of, unless the transactions by which such loan was made or acquired and then repaid or disposed of are established to be for bona fide business purposes.
- b) The term "nonqualifying loan" shall mean any loan which is not a qualifying real property loan.
- c) The term "loan" shall mean debt, as the term "debt" is used in section 166 of the Internal Revenue Code.
- d) A regular or residual interest in a remic, as such term is defined in sec-

tion 860d of the Internal Revenue Code, shall be treated as a qualifying real property loan, except that if less than 95% of the assets of such remic are qualifying real property loans (determined as if the taxpayer held the assets of the remic), such interest shall be so treated only in the proportion which the assets of such remic consist of such loans. For purposes of determining whether any interest in a remic qualifies under the preceding sentence, any interest in another remic held by such remic shall be treated as a qualifying real property loan under principles similar to the principles of the preceding sentence, except that if such remics are part of a tiered structure, they shall be treated as one remic for purposes of this paragraph.

- 7) a) Any distribution of property (as defined in section 317(a) of the Internal Revenue Code) by a thrift institution to a shareholder with respect to its stock, if such distribution is not allowable as a deduction under section 591 of such code, shall be treated as made
 - (i) first out of its New York earnings and profits accumulated in taxable years beginning after December 31, 1951, to the extent thereof,
 - (ii) then out of the New York reserve for losses on qualifying real property loans, to the extent additions to such reserve exceed the additions which would have been allowed under paragraph 5,
 - (iii) then out of the supplemental reserve for losses on loans, to the extent thereof,
 - (iv) then out of such other accounts as may be proper. This paragraph 7 shall apply in the case of any distribution in redemption of stock or in partial or complete liquidation of a thrift institution, except that any such distribution shall be treated as made first out of the amount referred to in clause (ii), second out of the amount referred to in clause (iii), third out of the amount referred to in clause (i) and then out of such other accounts as may be proper. This clause (a) shall not apply to any transaction to which section 381 of such code (relating to carryovers and certain corporate acquisitions) applies, or to any distribution to the Federal Savings and Loan Insurance Corporation or the Federal Deposit Insurance Corporation in redemption of an interest in an association or institution, if such interest was originally received by the Federal Saving and Loan

Insurance Corporation or the Federal Deposit Insurance Corporation in exchange for financial assistance pursuant to section 406(f) of the Federal National Housing Act or pursuant to subsection (c) of section 13 of the Federal Deposit Insurance Act.

- b) If any distribution is treated under clause (a) of this paragraph as having been made out of the reserves described in clauses (ii) and (iii) of clause (a), the amount charged against such reserve shall be the amount which, when reduced by the amount of tax imposed by the Internal Revenue Code and attributable to the inclusion of such amount in gross income, is equal to the amount of such distribution; and the amount so charged against such reserve shall be included in the entire net income of the taxpayer.
- c)
 - (i) For purposes of clause (ii) of clause (a), additions to the New York reserve for losses on qualifying real property loans for the taxable year in which the distribution occurs shall be taken into account.
 - (ii) for purposes of computing the amount of a reasonable addition to the New York reserve for losses on qualifying real property loans for any taxable year, the amount charged during any year to such reserve pursuant to the provision of clause (b) of this paragraph shall not be taken into account.
- 8) A taxpayer which maintains a New York reserve for losses on qualifying real property loans and which ceases to meet the definition of a thrift institution as defined in Ad. Code §11-641(h)(1), must include in its entire net income for the last taxable year such paragraph (1) applied to the excess of its New York reserve for losses on qualifying real property loans over the greater of (a) its reserve for losses for qualifying real property loans as of the last day of the last taxable year such reserve is maintained for federal income tax purposes or (b) the balance of New York reserve for losses on qualifying real property loans which would be allowable to the taxpayer for the last taxable year such taxpayer met such definition of a thrift institution if the taxpayer had computed its reserve balance pursuant to the method described in subparagraph (a) of paragraph 1 of Ad. Code §11-641(i). (As last amended by Chapter 18, Laws 1997, effective March 11, 1997, and applicable to taxable years beginning after December 31, 1995.)

LINE 31b - BAD DEBT DEDUCTIONS

- 1) A taxpayer subject to the provisions of Section 585(c) of the Internal Revenue Code may, in computing entire net income, deduct

an amount equal to or less than the amount determined pursuant to clause (a) or (b) of this paragraph, whichever is greater. However, in no event shall the deduction be less than the amount determined pursuant to clause (a).

- a) The amount determined pursuant to this clause shall be the amount necessary to increase the balance of its New York City reserve for losses on loans (at the close of the taxable year) to the amount which bears the same ratio to loans outstanding at the close of the taxable year
 - i) the total bad debts sustained during the taxable year and the five preceding taxable years (or, with the approval of the Department of Finance, a shorter period), adjusted for recoveries of bad debts during such period bears to
 - ii) the sum of the loans outstanding at the close of such six or fewer taxable years.
- b) i) The amount determined pursuant to this clause (b) shall be the amount necessary to increase the balance for its New York City reserve for losses on loans (at the close of the taxable year) to the lower of
 - I) the balance of the reserve at the close of the base year, or
 - II) if the amount of loans outstanding at the close of the taxable year is less than the amount of loans outstanding at the close of the base year, the amount which bears the same ratio to loans outstanding at the close of the taxable year as the balance of the reserve at the close of the base year bears to the amount of loans outstanding at the close of the base year.
- ii) For purposes of this paragraph, the base year shall be the last taxable year beginning before 1988.
- 2) Each taxpayer described in paragraph (1) shall establish and maintain a New York City reserve for losses on loans. Such reserve shall be maintained for all subsequent taxable years. The balance of the New York City reserve for losses on loans at the beginning of the first day of the first taxable year the taxpayer becomes subject to this subsection shall be the same as the balance at the beginning of such day of the reserve for losses on loans maintained for federal income tax purposes. The New York City reserve for losses on loans shall be reduced by an amount equal to the deduction allowed, but not more than the amount allowable, for worthless debts for federal income tax purposes pursuant to Section 166 of the Internal Revenue Code plus the amount, if any, charged against its reserve

for losses on loans pursuant to Section 585(c)(4) of such code.

- 3) The determination and treatment of the New York City reserve balance, including any additions, subtractions or recapture, for
 - a) any banking corporation which was subject to tax for federal income tax purposes but not subject to tax under Subchapter 3 of Chapter 6 of Title 11 of the Administrative Code for prior taxable years,
 - b) any taxpayer which ceases to be subject to tax under Subchapter 3 of Chapter 6 of Title 11 of the Administrative Code, or
 - c) any other unusual circumstances shall be determined by the Department of Finance, provided, however, any banking corporation which was subject to tax for federal income tax purposes but not subject to tax under Subchapter 3 of Chapter 6 of Title 11 of the Administrative Code for prior taxable years shall have as its opening New York City reserve for losses on loans the amount determined by applying the provisions of clause (a) of paragraph (1) to loans outstanding at the close of its last taxable year for federal income tax purposes ending prior to the first taxable year for which the taxpayer is subject to tax under Subchapter 3 of Chapter 6 of Title 11 of the Administrative Code and provided further that the provisions of clause (b) of paragraph (1) shall not apply.

- 1) in which it was a qualified institution as defined in Section 406(f)(5)(B) of the Federal National Housing Act, as amended, or Section 13(i)(2) of the Federal Deposit Insurance Act, as amended, and
- 2) in which it had outstanding net worth certificates issued to the Federal Savings and Loan Insurance Corporation (FSLIC) in accordance with Section 406(f)(5) of the Federal National Housing Act, as amended, or outstanding net worth certificates issued to the Federal Deposit Insurance Corporation (FDIC) in accordance with Section 13(i) of the Federal Deposit Insurance Act, as amended, provided it would have been exempt from any tax determined on the basis of the deposits held by it or the interest paid on such deposits pursuant to Section 406(f)(5)(I) of the Federal National Housing Act, as amended, or Section 13(i)(9) of the Federal Deposit Insurance Act, as amended.

LINE 1 - AVERAGE VALUE OF TOTAL ASSETS

Compute the average value of total assets, which includes money or other property received from the FSLIC or FDIC and interbank placements. The average value of total assets is computed on a quarterly basis, or, at the option of the taxpayer, on a more frequent basis, such as monthly, weekly or daily.

Total assets means the average value of those assets which are properly reflected on a balance sheet, the income or expenses of which are properly reflected (or would have been properly reflected if not fully depreciated or expensed or depreciated or expensed to a nominal amount) in the computation of the taxpayer's alternative entire net income for the taxable year or in the computation of the eligible net income of the taxpayer's IBF for the taxable year.

SCHEDULE F

Computation of International Banking Facility Adjusted Eligible Net Income or Loss

IBF (INTERNATIONAL BANKING FACILITY)

A corporation with an IBF located in New York State may exclude the adjusted eligible net income or add the adjusted eligible net loss of such IBF in computing its entire net income and alternative entire net income, or the corporation may elect, on an annual basis, to reflect the results of its IBF operations in its entire net income allocation percentage and in its alternative entire net income allocation percentage. For timely notification concerning the IBF election, see page 2 of these instructions. Indicate whether the election has been made by checking the box on page 1, line 26.

A corporation with an IBF located in New York State which has not elected to reflect the results of its IBF operations in its entire net income allocation percentage or alternative entire net income allocation percentage deducts from entire net income (at Schedule B, line 28) the adjusted eligible net income of such IBF or adds to entire net income (at Schedule B, line 28) the adjusted eligible net loss of such IBF. A corporation using this method is required to complete all of Schedule F to determine the adjusted eligible net income or loss of its IBF.

A corporation with an IBF located in New York State which has elected to reflect the results of its IBF operations in its entire net income allocation percentage and in its alternative entire net income allocation percentage must complete lines 1 through 18 of Schedule F.

Whatever election the corporation makes concerning the IBF modification to entire net income applies to the computation of alternative entire

net income. The election is binding on the taxpayer for that taxable year and cannot be changed by filing an amended return.

A taxpayer must modify federal taxable income to recognize the income and expenses included in the computation of the IBF eligible net income of its New York IBF when such income and expenses are not otherwise included in such federal taxable income or in the other modifications contained in Schedule B.

SCHEDULE G

Allocation Percentages

A corporation which is doing business both within and without New York City is entitled to allocate its entire net income, alternative entire net income, taxable assets, and issued capital stock within and without New York City. A corporation which is not doing business without New York City must allocate its entire net income, alternative entire net income, taxable assets, and issued capital stock 100% to New York City. However, a corporation that has an IBF located in New York State may elect, on an annual basis, to reflect the results of its IBF operations in its entire net income allocation percentage and in its alternative entire net income allocation percentage. For timely notification concerning the IBF election, see page 2 of these instructions.

A corporation which is not doing business without New York City and which has made the IBF election must allocate taxable assets 100% to New York City.

In determining whether a corporation is doing business without New York City, consideration is given to the same factors used to determine if business is being carried on within New York City. (Refer to "Definition of Doing Business Within New York City" on page 1 of these instructions.) A corporation which claims to be doing business without New York City must attach a rider describing the activities of the corporation within and without New York City.

Each allocation percentage (except the issued capital stock allocation percentage) is determined by a formula consisting of a payroll factor, a receipts factor and a deposits factor.

The receipts factor shall include only receipts which are included in the computation of alternative entire net income for the taxable year. The deposits and payroll factors shall include only deposits and payroll, the expenses of which are included in the computation of alternative entire net income for the taxable year. Each factor is computed on a cash or accrual basis according to the method of accounting used by the taxpayer for the taxable year in computing its alternative entire net income.

The instructions that follow contain general allocation information. Corporations with an IBF located in New York State must also follow the instructions on pages 9 and 10.

PAYROLL FACTOR

The percentage of a corporation's payroll allocat-

ed to New York City is determined by dividing 80% (100% when computing the alternative entire net income allocation percentage) of the wages, salaries and other personal service compensation of the corporation's employees, except general executive officers, within New York City during the period the corporation is entitled to allocate by the total amount of wages, salaries and other personal service compensation of the corporation's employees, except general executive officers, both within and without New York City during the period the corporation is entitled to allocate.

The term "employees" includes every individual, except general executive officers, where the relationship existing between the corporation and the individual is that of employer and employee. The phrase "employees within New York City" includes all employees regularly connected with or working out of an office of the corporation within New York City, irrespective of where the services of such employees were performed.

The phrase "general executive officer" includes every officer of the corporation charged with and performing general executive duties of the corporation who is elected by the shareholders, elected or appointed by the board of directors, or whose appointment, if initially made by another officer, is ratified by the board of directors. A general executive officer must have company-wide authority with respect to his assigned functions or duties or must be responsible for an entire division of the company.

RECEIPTS FACTOR

The percentage of the taxpayer's receipts allocated to New York City is determined by dividing 100% of the taxpayer's receipts from loans (including the taxpayer's portion of a participation in a loan) and financing leases and all other business receipts earned within New York City during the period the taxpayer is entitled to allocate by the total amount of the taxpayer's receipts from loans (including the taxpayer's portion of a participation in a loan) and financing leases and all other business receipts within and without New York City during the period the taxpayer is entitled to allocate.

INTEREST INCOME FROM LOANS AND FINANCING LEASES

Interest income from loans and financing leases is allocated to New York City if such income is attributable to a loan or financing lease which is located in New York City. Interest income from a loan or financing lease does not include repayments of principal. A loan or financing lease is located where the greater portion of income-producing activity relating to the loan or financing lease occurred. Except for a production credit association and a corporation described on page 1 of these instructions under "Who Must File," item D, a loan or financing lease attributed by the taxpayer to a branch without New York City shall be presumed to be properly so attributed, provided that such presumption may be rebutted if the Department of Finance demonstrates that the greater portion of income-producing activity relat-

ed to the loan or financing lease did not occur at such branch. In the case of a loan or financing lease which is recorded on the books of a place without New York City which is not a branch, it shall be presumed that the greater portion of income-producing activity related to such loan or financing lease occurred within New York City if the taxpayer had a branch within New York City at the time the loan or financing lease was made. The taxpayer may rebut such presumption by demonstrating that the greater portion of income-producing activity related to the loan or financing lease did not occur within New York City.

In the case of a production credit association and a corporation described in "Who Must File," item D, a loan or financing lease attributed by the taxpayer to a bona fide office without New York City shall be presumed to be properly so attributed, provided that such presumption may be rebutted if the Department of Finance demonstrates that the greater portion of income-producing activity related to the loan or financing lease did not occur without New York City.

Income-producing activity includes such activities as, solicitation, investigation, negotiation, approval and administration of the loan or financing lease. A loan or financing lease is made when such loan or financing lease is approved. The term "loan" means any loan, whether the transaction is represented by a promissory note, security, acknowledgment of advance, due bill or any other form of credit transaction, if the related asset is properly recorded in the financial accounts of the taxpayer. Loans include the taxpayer's portion of a participation in a loan. The term "financing lease" means a lease where the taxpayer is not treated as the owner of the property for purpose of computing alternative entire net income.

OTHER INCOME FROM LOANS AND FINANCING LEASES

Other income from loans and financing leases includes, but is not limited to, arrangement fees, commitment fees and management fees, but does not include repayments of principal. Other income from loans and financing leases is allocated to New York City when the greater portion of income-producing activity relating to such income is within New York City.

LEASE TRANSACTIONS AND RENTS

Receipts from real property and tangible personal property leased or rented from the corporation are allocated to New York City if such property is located in New York City. Receipts from rentals include all amounts received by the corporation for the use of or occupation of property, whether or not such property is owned by the taxpayer. Gross receipts received from real property and tangible personal property which is subleased must be included in the receipts factor.

INTEREST FROM BANK, CREDIT, TRAVEL, ENTERTAINMENT & OTHER CARD RECEIVABLES

Interest, fees in the nature of interest, and penalties in the nature of interest from bank, credit,

travel, entertainment and other card receivables are allocated to New York City if the card holder's domicile is in New York City. It is presumed that the domicile of a card holder is the card holder's billing address.

SERVICE CHARGES & FEES FROM BANK, CREDIT, TRAVEL, ENTERTAINMENT AND OTHER CARDS

Service charges and fees from bank, credit, travel, entertainment and other cards are allocated to New York City if the card is serviced within New York City. A card is serviced at the place where the records pertaining to such account are kept and managed.

RECEIPTS FROM MERCHANT DISCOUNTS

Receipts from merchant discounts are allocated to New York City if the merchant is located within New York City. In the case of a merchant with locations both within and without New York City, only receipts from merchant discounts attributable to sales made from locations within New York City are allocated to New York City. It shall be presumed that the location of the merchant is the address of the merchant shown on the invoice submitted by the merchant.

INCOME FROM TRADING ACTIVITIES AND INVESTMENT ACTIVITIES

The portion of total net gains and other income from trading activities (including but not limited to foreign exchange, options and financial futures) and investment activities which is attributed within New York City shall be ascertained by multiplying such total net gains and other income by a fraction the numerator of which is the average value of trading assets and investment assets attributed to New York City and the denominator of which is the average value of all trading and investment assets. A trading asset or investment asset is attributed to New York City if the greater portion of income producing activity related to the trading asset or investment asset occurred within New York City.

FEES OR CHARGES FROM LETTERS OF CREDIT, TRAVELER'S CHECKS AND MONEY ORDERS

Fees or charges from the issuance of letters of credit, traveler's checks, and money orders are allocated to New York City if such letters of credit, traveler's checks, or money orders are issued within New York City.

PERFORMANCE OF SERVICES

Receipts from services performed by the taxpayer's employees regularly connected with or working out of a New York City office of the taxpayer are allocated to New York City if such services are performed within New York City.

When allocating receipts from services performed, it is immaterial where such receipts are payable or where they are actually received.

Where services are performed both within and without New York City, the portion of the receipts attributable to services performed within New York City is determined on the basis of the

relative value of, or amount of time spent in performance of, such services within New York City, or by some other reasonable method. Full details must be submitted with the taxpayer's return.

ROYALTIES

Receipts of royalties from the use of patents, copyrights and trademarks are allocated to New York City if the taxpayer's actual seat of management or control is located in New York City. Royalties include all amounts received by the taxpayer for the use of patents, copyrights or trademarks, whether or not such patents, copyrights or trademarks were issued to the taxpayer.

ALL OTHER BUSINESS RECEIPTS

Income from securities used to maintain reserves against deposits to meet federal and State reserve requirements shall be allocated to New York City based upon the ratio that total deposits in New York City bear to total deposits everywhere. All other business receipts earned by the taxpayer in New York City are allocated to New York City. A receipt from the sale of a capital asset is not a business receipt and is not included in the receipts factor. For example, the receipt from the sale of a capital asset as scrap or at a gain is not included in the receipts factor.

DEPOSITS FACTOR

The percentage of the taxpayer's deposits allocated to New York City is determined by dividing the average value of deposits maintained at branches of the taxpayer within New York City during the period the taxpayer is entitled to allocate by the average value of all deposits maintained at branches of the taxpayer both within and without New York City during the period the taxpayer is entitled to allocate.

The term "deposit" means:

- the unpaid balance of money or its equivalent received or held by a bank in the usual course of business and for which it has given or is obligated to give credit, either conditionally or unconditionally, to a commercial, checking, savings, time, or thrift account, or which is evidenced by its certificate of deposit, thrift certificate, investment certificate, certificate of indebtedness, or other similar name, or a check or draft drawn against a deposit account and certified by the bank, or a letter of credit or a traveler's check on which the bank is primarily liable; provided that, without limiting the generality of the term "money or its equivalent," any such account or instrument must be regarded as evidencing the receipt of the equivalent of money when credited or issued in exchange for checks or drafts or for a promissory note upon which the person obtaining any such credit or instrument is primarily or secondarily liable, or for a charge against a deposit account, or in settlement of checks, drafts or other instruments forwarded to such bank for collection;
- trust funds received or held by such bank, whether held in the trust department or held or deposited in any other department of

such bank;

- money received or held by a bank, or the credit given for money or its equivalent received or held by a bank, in the usual course of business for a special or specific purpose, regardless of the legal relationship thereby established, including, without being limited to, escrow funds, funds held as security for an obligation due to the bank or others (including funds held as dealers' reserves) or for securities loaned by the bank, funds deposited by a debtor to meet maturing obligations, funds deposited as advance payment on subscriptions to United States Government securities, funds held for distribution or purchase of securities, funds held to meet its acceptances or letters of credit, and withheld taxes; provided that there shall not be included funds which are received by the bank for immediate application to the reduction of an indebtedness to the receiving bank, or under condition that the receipt thereof immediately reduces or extinguishes such an indebtedness; and
- outstanding drafts (including advice or authorization to charge a bank's balance in another bank), cashier's checks, money orders, or other officer's checks issued in the usual course of business for any purpose, but not including those issued in payment for services, dividends, or purchases or other costs or expenses of the bank itself.

The term "maintained" refers to the branch of the taxpayer at which a deposit is properly booked. A deposit, the value of which at all times during the taxable year was less than \$100,000, that is booked by a taxpayer at a branch without New York City is presumed to be properly booked, provided that such presumption may be rebutted if the Department of Finance demonstrates that the greater portion of contact relating to the deposit did not occur at such branch. Where such presumption has been rebutted by the Department of Finance, the deposit shall be presumed to be maintained within New York City if the taxpayer had a branch within New York City at the time the deposit was booked. However, the taxpayer may rebut such presumption by demonstrating that the greater portion of contact relating to the deposit did occur at a branch outside New York City. A deposit, the value of which at any time during the taxable year was \$100,000 or more, is considered to be properly booked at the branch with which it has a greater portion of contact.

In determining whether a deposit has a greater portion of contact with a particular branch, consideration is given to such activities as:

- whether the deposit account was opened at or transferred to that branch by or at the direction of the depositor or by a broker of deposits, regardless of where subsequent deposits or withdrawals may be made;
- whether employees regularly connected with that branch are primarily responsible for servicing the depositor's general banking

and other financial needs;

- whether the deposit was solicited by an employee regularly connected with that branch, regardless of where such deposit was actually solicited;
- whether the terms governing the deposit were negotiated by employees regularly connected with that branch, regardless of where the negotiations were actually conducted; and
- whether essential records relating to the deposit are kept at that branch and whether the deposit is serviced at that branch.

The value of deposits maintained at branches of the taxpayer is the total of the amounts credited to depositors, including the amount of any interest so credited. The average value of deposits is to be computed on a daily basis. However, if the taxpayer's usual accounting practices do not permit the computation of average value on a daily basis, a computation on a weekly basis will be permitted. The Department of Finance will not permit the computation of average value of deposits on a basis less frequent than weekly, unless the taxpayer demonstrates that requiring it to use a weekly computation would produce an undue hardship.

ALLOCATION PERCENTAGE FOR TAXPAYERS WITH AN IBF LOCATED IN NEW YORK STATE

A corporation with an IBF located in New York State which has not made the IBF election, must, when computing its entire net income allocation percentage and its alternative entire net income allocation percentage:

- exclude from the numerator and denominator of the payroll factor the wages, salaries, and other personal service compensation of employees of the IBF.
- exclude from the numerator and denominator of the receipts factor those receipts which are attributable to the production of eligible gross income of the IBF.
- exclude from the numerator and denominator of the deposits factor those deposits whose expenses are attributable to the production of eligible gross income of the IBF.

A corporation which has an IBF located in New York State and which has made the IBF election, must, when computing the entire net income allocation percentage and the alternative entire net income allocation percentage:

- exclude from the numerator of the payroll factor the wages, salaries and other personal service compensation of employees, the expenses of which are attributable to the production of eligible gross income of the IBF. Include in the denominator of the payroll factor the wages, salaries and other personal service compensation of employees, except general executive officers, the expenses of which are attributable to the production of eligible gross income of the IBF.

- exclude from the numerator but include in the denominator of the receipts factor those receipts which are attributable to the production of eligible gross income of the IBF.
- exclude from the numerator but include in the denominator of the deposits factor deposits, the expenses of which are attributable to the production of eligible gross income of the IBF.

Every corporation which has an IBF located in New York State (whether or not it has made the IBF election) must compute its taxable assets allocation percentage as follows:

- Include in the numerator and denominator of the payroll factor wages, salaries and personal service compensation of employees, except general executive officers, the expenses of which are attributable to the production of eligible gross income of the IBF.
- Include in the numerator and denominator of the receipts factor receipts which are attributable to the production of eligible gross income of the IBF.
- Include in the numerator and denominator of the deposits factor deposits, the expenses of which are attributable to the production of eligible gross income of the IBF.

For the purpose of these adjustments, eligible gross income does not include transactions between the taxpayer's foreign branches and its IBF.
