

**Neighborhood Construction Program (NCP)
 Term Sheet**

Program Description

HPD's Neighborhood Construction Program (NCP) funds the new construction of infill rental housing with up to 45 units affordable to low, moderate and middle income households earning up to 165% Area Median Income (AMI).

Sponsors may apply to the program to develop privately owned properties or they may be selected through a Request for Qualifications (RFQ) process to purchase City-owned sites. For city-owned sites, disposition will be for \$1 per lot and developers will deliver an enforcement note and mortgage equal to the land's appraised value ("Land Debt") payable at the end of 30 years with simple AFR.

HPD subsidy is in addition to construction and permanent financing sources provided by, but not limited to, private institutional lenders, the Federal Low Income Housing Tax Credit Program (LIHTC), New York State Homes and Community Renewal (HCR) Homes for Working Families Initiative (HWF), Low Income Housing Trust Fund Program (HTF), New York State Low Income, Housing Tax Credit Program (SLIHC) and Low Income Housing Credit Program (LIHC), and New York State Housing Finance Agency programs.

Eligible Borrowers and Sponsors

In order to be eligible for HPD-issued Capital funds, it is required that a borrower be a Housing Development Fund Corporation either alone or in partnership with for-profit developers, limited partnerships, corporations, trusts, joint ventures, or limited liability companies.

New construction of affordable rental housing with up to 45 units affordable to households earning up to 165% AMI. Projects may serve low income households or moderate and middle income households.

HPD Loan Amount

HPD may provide a maximum subsidy according to the chart below. Preference will be given to projects requesting less than the maximum subsidy.

PER DU SUBSIDY	
MAXIMUM SUBSIDY	Up to \$100,000 per DU*

*Subsidies may be adjusted for private site acquisition supported by an appraisal methodology acceptable to HPD.

Per-Unit subsidies may be reduced for projects utilizing other sources, including the Inclusionary Housing Program or Project-Based Section 8, absent broader/deeper affordability or project benefits.

Preference will be given to projects requesting less than the maximum subsidy, offering the most affordability, and otherwise demonstrating cost containment; examples may include but will not be limited to proposals that conform with competitive criteria, LIHTC basis caps, utilize aggressive construction and leaseup schedules, use of reserves, etc.

Loan Terms

- Loan Term: 30 years (Loan terms vary by funding source and lending authority).
- Interest Rate: 1% per annum plus 0.25% servicing fee during construction. HPD may consider reducing the paid rate under 1.00% to leverage additional private financing. An additional simple interest rate set at the Applicable Federal Rate (AFR) may defer and accrue, with balloon due at maturity.
- Amortization: Balloon allowable up to 100% of HPD loan amount.
- Debt Service Coverage: 115% on all financing.
- Loan to Cost: May not exceed 90% overall of total development cost.
- Income to expense ratio: 1.00 to 1.05 on all financing. Project Income should include residential rental and commercial income, as applicable

- **Developer's Fee:** A developer's fee is only allowed when tax credits are used or funds are combined with other public subsidy programs allowing such fees. As described in the HPD Qualified Action Plan, total developer fee is not to exceed 15% of improvement costs (excluding developer fee, reserves, and syndication and partnership expenses) and 10% of acquisition costs for tax credit projects. Up to 10% of the fee may be paid during construction. Consultant fees should be paid from the developer fee. HPD may require a reduction in paid developer fee in order to reduce public subsidy. HPD will recognize deferred developer fee if there is a revenue stream, usually cash flow, to enable the deferred fee to be paid within 15 years of the expected placed in service date of the project.
- **Land Acquisition:** Acquisition costs for privately owned land will be reviewed by HPD and may be approved at up to appraised value. Subsidies may be adjusted for private site acquisition supported by an appraisal methodology acceptable to HPD. For city-owned sites, disposition will be for \$1 per lot with the land's appraised value in an enforcement note and mortgage, which may be payable upon maturity
- HPD requires that the general contractor secures projects by either a Payment and Performance bond for 100% of hard costs or a letter of credit.
- Projects funded with Federal funds require compliance with Section 3 new hires and Davis Bacon prevailing wages, as applicable.

Equity Requirement

For-profit developers: minimum of 10% of total allowable development costs.
Not-for-profit developers: minimum of 2% of total allowable development costs.
Tax credit equity may count towards developer equity requirement.
