Fiscal and Service Reports
For Fiscal Years 2011 and 2012

The City of New York
Michael R. Bloomberg, Mayor

INTRODUCTION

The District Resource Statement (DRS) is prepared annually by the Office of Management and Budget. Sections 2707 and 2708 of the New York City Charter require that agencies report to the City's 59 community boards expense budget and service information at the agency's service district level. The reporting levels vary by agency and by program. Service districts range from police precincts which can be smaller than community districts to multi-borough offices.

This edition of the DRS gives information for both FY 2011 and FY 2012. The current edition reports on agencies that deliver services directly to community districts and boroughs. These agencies manually generate the information in the DRS, except for the fiscal data which is provided by the Financial Information Services Agency. The agencies also provide performance indicators for a variety of services. An explanation of agency programs and performance indicators is included.

Personnel headcounts and corresponding fiscal data, equipment information, performance indicators, and contractual services are organized as follows:

- **Personnel Report** - FY 2011 headcounts and fiscal data are as of June 30, 2011. FY 2012 Adopted Budget data is as of the Budget Adoption in June.
- **Equipment Report** - Unless otherwise noted, FY 2011 information is as of June 30, 2011. FY 2012 information indicates proposed equipment levels.
- **Performance Report** - Once again, community boards will be able to compare select measures of agency

performance within their district to a borough-wide and/or citywide average of the agency's performance. Except where indicated, the performance figures are full year figures for FY 2011. Section 12(c)6 of the New York City Charter states that "for agencies with local service districts or programs within community districts and boroughs, the mayor's preliminary management report and management report insofar as practicable shall include schedules of agency service goals, performance measures and actual performance relative to goals for each such local service district or program." Indicator information in the DRS supplements the Mayor's Management Report by providing measures of performance at the local level. Totals for all the districts reporting in the DRS will be consistent with the citywide numbers reported in the MMR except where otherwise noted.

- **Contract Report** - Data on contractual services varies somewhat from program to program, but includes at least the time period of the contract, the cost of the contract, the kind of service provided and some measure of the service.

For each agency program, all pages for a particular local service district are grouped together in the following order: Personnel, Equipment, Performance, and Contract Reports. The Personnel Reports give a complete description of the service and the address of the local service district headquarters. The contract pages provide the names and addresses of vendors, and sometimes the location where the service is provided.

The District Resource Statement is useful to the community boards at all stages of the budget participation process. Community boards can use the DRS to monitor service delivery throughout the year. It provides a common data base which the agencies and community boards can use to discuss service delivery and to formulate specific budget requests. The Performance Reports can help the boards assess the quality of the service in relation to the resources which are deployed in or budgeted for the community district. By comparing this year's DRS with previous editions, community boards can also use the DRS to analyze trends in funding levels, resource allocation, and service delivery. Using the Mayor's Management Report, boards are able to compare service performance indicators in their district with citywide findings.

Caution must be used in interpreting the information contained in this document. Agencies often need to move personnel or equipment from one district to another or employ seasonal workers depending on the time of the year. These changes are not reflected in the DRS. A reduction in staffing levels does not necessarily signal a corresponding reduction in services. Where necessary agencies provide explanatory footnotes. Also, Financial Plan Savings are not reflected in the local district reports because these amounts are budgeted at the Unit of Appropriation level. It is not possible to predict the impact of financial savings on an individual service district level.

OMB publishes District Resource Statements for the following agencies:

- Department for the Aging
- Department of Buildings
- Department of Cultural Affairs
- Department of Small Business Services
- Department of Environmental Protection
- Fire Department
- Department of Health & Mental Hygiene
- Department of Housing Preservation & Development
- Human Resources Administration
- Libraries
- Department of Parks and Recreation
- Police Department
- Department of Sanitation
- Department of Transportation
- Department of Youth and Community Development

HUMAN RESOURCES ADMINISTRATION

AGENCY MISSION

The New York City Human Resources Administration/ Department of Social Services (HRA/DSS) provides temporary help to individuals and families with social service and economic needs to assist them in achieving and sustaining self-sufficiency.

HRA serves more than 3 million New Yorkers through essential and diverse programs and services that include: temporary cash assistance, public health insurance, food stamps, home care for seniors and the disabled, child care, adult protective services, domestic violence, home energy and utility assistance, HIV/AIDS support services and child support enforcement, assistance and fraud and identity theft assistance. Medical support services include: public health insurance and employer-based affordable health insurance plans, adult protective services, home care, and services for HIV/AIDS individuals.

Agency Overview

HRA offers a diverse range of services through its Administrations and Offices including Family Independence Administration, Medical Insurance and Community Services Administration, HIV/AIDS Services Administration, Customized Assistance Services, Office of Child Support, and Investigation, Revenue and Enforcement Administration.

- The number of persons receiving cash assistance decreased slightly at the end of the first four months of Fiscal 2012, compared to the same point in time in Fiscal 2011. HRA continues its welfare reform efforts designed to engage recipients in work and work-related activities to enhance their ability to obtain employment and reach their maximum level of self-sufficiency. The December 2011 number of cash assistance recipients is the lowest number of recipients since December 1963.
- The number of persons receiving food stamps increased slightly by 2.4 percent during the first four months of Fiscal 2012, compared to the same period in Fiscal 2011. Among these recipients, the number of non-cash assistance persons receiving food stamps increased 4.1 percent, reaching an all-time high. HRA has made food stamps more accessible by making several structural program changes, such as allowing phone interviews and accepting mail, fax and online applications, which have reduced the need for people to come into the office. The Agency hired more eligibility workers and developed partnerships with community organizations where applications can be taken and submitted electronically.
- During the first four months of Fiscal 2012, the amounts collected and costs avoided because of

efforts to combat Medicaid fraud, waste and abuse, increased by 22.7 percent compared to the same period in Fiscal 2011. This increase is due to efforts to increase recoveries from Medicaid Provider compliance audits; a more focused effort on client and provider Medicaid prescription drug fraud investigations; and increased efforts to recover monies owed from collection activities such as Supplemental Needs Trusts, property and negligence liens.

- HRA/DSS job centers offer temporary financial assistance, food stamps and Medicaid to eligible individuals. Eligible adults in receipt of financial assistance are required to participate in an employment or rehabilitative activity designed to help them achieve their highest level of self-sufficiency. In addition, they are provided with child care and transportation support.

The job centers reflect both a philosophical commitment to self-sufficiency and a programmatic effort to emphasize the essential role of work in our lives. HRA met its monthly job placement goals for the first four months of Fiscal 2012. HRA sets its job placement goal each January based on the projected cash assistance caseload. In calendar year 2011, HRA achieved 89,577 job placements, exceeding its goal of helping 85,000 New Yorkers in 2011 who were in need to find or keep jobs, even in a difficult economy. The Human Resources Administration/Department of Social Services is committed to being a model social service agency that maximizes individual self-sufficiency, familial responsibility, and community involvement.

The Human Resources Administration Program Areas

The Human Resources Administration (HRA) assists individuals and families in achieving and sustaining their maximum degree of self-sufficiency. HRA provides cash assistance and employment services at 24 Job Centers; 15 use a model office system designed to streamline workflow and enhance access to services. Family Services Call Center and its satellites and the Special Projects Center provide specialized services. Food stamps are provided at 16 offices (11 are Model Offices and two are for SSI and congregate care cases). HRA offers public health insurance at 15 Medicaid Community Model Offices, coordinates a citywide effort to increase access to public health insurance at convenient neighborhood locations across the five boroughs, and provides an online decision-support tool that lets residents and small businesses learn about their health insurance options and compare private health plans online; HASA support services to medically eligible individuals are provided through 12 centers (9 are Model Offices); and adult protective services through 6 borough offices and 6 contracted programs. HRA determines the personal care eligibility of disabled, frail and aged Medicaid recipients at 7 Community Alternative System Agency offices and contracts with 52 vendors for services. Services to victims of domestic violence are offered through 52 State-licensed residential programs, 15 community-based programs, and various HRA programs. HRA assists New York City families in obtaining child support orders and collecting child support payments at 4 borough and 5 Family Court offices.

Family Independence Administration (FIA)

The Family Independence Administration (FIA) coordinates HRA/DSS's welfare reform efforts by administering Job Center Operations and the Food Stamp Program for New York City. FIA's programs include temporary cash assistance, food stamps, medical assistance for those receiving cash assistance, and employment services. Through directly operated and contracted services, these programs are designed to promote the maximum possible level of self-reliance through work and personal responsibility. FIA also seeks to provide services to our customers that are best suited to overcome any barriers which prevent them from obtaining and retaining employment.

HRA/DSS Job Center staff brings resources to people to help them move toward self-sufficiency. Eligible individuals are enrolled in comprehensive employment programs which include work experience, job search and placement services, as well as vocational, job skills training and educational programs. As clients work to achieve their personal self-sufficiency goals, FIA's staff provides these eligible able-bodied New Yorkers and their families with the food assistance to which they are entitled. Food stamps are also provided to the unemployed, elderly and the disabled. Job Center staff is also responsible for determining ongoing eligibility for cash assistance.

Over the past year, FIA's food stamp program has introduced a number of initiatives designed to increase access to the food stamp program. The initiatives allow working applicants in certain

circumstances to have their eligibility interview over the telephone. All recipients who do not need to come to the office for a specific purpose, such as, finger imaging, are eligible for a telephone recertification interview. HRA has also partnered with a number of community-based organizations to provide for the electronic submission of food stamp applications and the supporting documents from community-based sites.

Domestic Violence and Emergency Intervention (ODVEIS)

The Office of Domestic Violence and Emergency Intervention Services (ODVEIS) provides social services for victims of domestic violence including community based counseling and advocacy as well as emergency shelter. ODVEIS directly operates one emergency domestic violence shelter, administers 45 state-licensed emergency residential programs and oversees private customer referrals for eight transitional housing programs. The percent of families entering HRA's domestic violence shelters who were found eligible for services at Prevention Assistance in Transition for Homelessness (PATH) increased by 6.8 percentage points during the first four months of Fiscal 2012, compared to the same period in Fiscal 2011. This was due to improved efforts by HRA staff to place eligible clients in domestic violence shelters and use of computerized domestic violence shelter referral and placement system (SORTS). In the shelters, clients receive a full complement of services to support their transition into safety and stability. All programs provide a safe environment as well as counseling, legal assistance, services for children, advocacy and referral services.

In addition, the Office of Emergency Intervention Services (OEIS) includes Crisis and Disaster Services, which responds to citywide emergencies such as hurricanes, snow storms and blackouts; the Home Energy Assistance Program (HEAP), the Heatline, which is the homebound HEAP unit, Utility Assistance Program, and the Department of Environmental Protection water program all of which provide energy related services to low income households; and the Emergency Food Assistance Program, which supplements the food supply in more than 500 food pantries and soup kitchens citywide

Medical Insurance and Community Services Administration (MICSA)

MICSA was created within the Human Resources Administration to link New Yorkers to public health insurance programs while administering the Agency's medically-related social services programs including Adult Protective Services, Home Care Services Program and HIV/AIDS Services Administration.

Currently, there are more than 2 million New Yorkers enrolled in public health insurance programs that are not receiving cash assistance. Enrollment remains high through the continued efforts of HRA/DSS and community partners, managed care plans and health care providers who work directly with potentially eligible New Yorkers to facilitate the completion of public health insurance applications or submit them on their behalf and to renew their coverage.

For New Yorkers who require long term support to live independently, HRA/DSS provides housing support, home care and long term care for the elderly and disabled, and counseling and housing support for people with HIV and AIDS.

MICSA includes:

Medical Assistance Programs (MAP): MAP is responsible for the administration of public health insurance (except Child health Plus). MAP determines and maintains eligibility, based on consumer income and other pertinent factors, for each of the available public health insurance programs and their related services.

Home Care Services Program (HCSP): HCSP determines financial and medical eligibility and authorizes services for a range of Medicaid-funded, and long-term care services for people who need help with activities of daily living. These services enable consumers to remain in the community and in their homes rather than in institutional settings. The Home Care Services Program provides assistance to more than 96,000 people.

Adult Protective Services (APS): APS intervenes monthly on behalf of approximately 9,000 mentally and/or physically impaired individuals who need protection from themselves or others due to neglect, abuse, or financial exploitation, when there is no one else to responsibly assist them. Typical APS services include referral for psychiatric or medical examinations and ongoing care, assistance in obtaining entitlements such as Medicaid and SSI, heavy duty cleaning services, rental arrears assistance to prevent evictions, and financial management to ensure that future rent is paid on time. APS investigates allegations of abuse, neglect and financial exploitation, and is required by law to file a report with the NYC Police Department when it has reason to believe that a crime has been committed against a person whose eligibility for APS services is currently being assessed, or for an adult who has been determined to be in need of APS services.

HIV/AIDS Services Administration (HASA): HASA is the primary mechanism within the Human Resources Administration which expedites access to essential benefits and social services needed by persons living with AIDS or advanced HIV illnesses and their families. HASA is committed to service provision that is individualized, efficient, effective and of high quality. HASA's work with its clients is based on the responsibility of all sectors of the community to work together to ensure that persons living with HIV/AIDS have adequate housing, financial security, medical care and other services necessary to allow them to manage the illness and to live their lives with the highest level of self-reliance and the fullest dignity. Presently, HASA serves 32,000 medically eligible clients, as well as over 13,000 non-medically eligible case members, through individualized service plans that provide the appropriate level of identified support for each case.

Office of Citywide Health Insurance Access (OCHIA)

The Office of Citywide Health Insurance Access (OCHIA) works to connect consumers and

business owners to health insurance options available through both public and private programs. To ensure that all those who are eligible for public health insurance are enrolled, OCHIA promotes and manages the collaborative work of 12 City agencies, 10 managed care plans, and a wide array of community- and faith-based organizations to provide outreach and facilitate enrollment in neighborhood venues such as public schools, diverse places of worship, public housing developments and community events. Known as the HealthStat Initiative, this collaboration has facilitated enrollment in public health insurance programs for over 43,000 New Yorkers in CY 2011 through November. Through HealthStat, OCHIA makes New Yorkers aware of the expanded eligibility for children in the State's Child Health Plus program and the public health insurance options for eligible low-income and working adults.

OCHIA also has initiatives to expand health insurance offerings by the City's small businesses. In 2007, OCHIA, in partnership with the Mayor's Office, completed negotiations with New York City's insurers to make domestic partner coverage available for small businesses in New York City. Unavailable to the small group market prior to the City's efforts, domestic partner coverage is now provided by all insurers for New York City's businesses with 2-50 employees. OCHIA has also worked to promote Healthy NY, a state subsidized insurance product targeted to low-wage workers and their small business employers. OCHIA's broker education and other outreach efforts have contributed to significant enrollment increases in New York City.

In September 2009, OCHIA launched a new website, NYC Health Insurance Link (NYC HI Link, available at: www.nyc.gov/hilink), to help small businesses and city residents find private health insurance. It allows consumers and business owners to compare plans across insurers in New York City and is designed to educate consumers and respond to the many questions they have as they look for insurance. The website also features tips for making coverage more affordable, such as pairing public and private coverage and setting up Section 125 cafeteria plans to make insurance less costly for workers. Since its inception, the site has helped over 94,000 New Yorkers learn about their health insurance options. Starting in the fall of 2010, the content of NYC HI Link included information about federal health care reform to help New Yorkers understand the ways that it will impact their health insurance choices and options.

Customized Assistance Services (CAS)

Customized Assistance Services (CAS) is a highly specialized division that provides direct and contracted clinically oriented services as well as expertise in the areas of health, mental health, substance abuse and rehabilitation to HRA's other program components. CAS develops and oversees clinically focused programs that provide comprehensive and individualized services to assist clients with medical and/or mental health conditions to achieve their maximum degree of self-reliance. CAS has four functional units: the Office of Health & Mental Health Services, the Office of Rehabilitation Services, the Office of Clinical and Service System Integration and the Office of Administration and Program Facilitation.

CAS is responsible for the Wellness, Comprehensive Assessment, Rehabilitation and Employment (WeCARE) program, the Visiting Psychiatric Service, the Placement Assessment and Client Tracking Unit (PACT), the Medical Consultation Unit, and the Disability Services Program.

WeCARE helps cash assistance clients with medical and/or mental health conditions that affect employability attain the highest possible degree of function and self-sufficiency. Services include assessment, diagnosis, individualized service planning, linkages to treatment, case management, vocational rehabilitation, skills training and education, job placement and retention, and assistance in obtaining federal disability benefits.

Office of Child Support Enforcement (OCSE)

The Office of Child Support Enforcement strives to improve the quality of life for children living in New York City by ensuring that they receive financial support from both parents. Child support payments from noncustodial parents in addition to other work supports like food stamps, day care, health insurance and Earned Income Tax Credit, help families achieve and maintain self-sufficiency. OCSE assists all parents, regardless of income and immigration status. Child support services to custodial parents and guardians include the location of noncustodial parents, paternity establishment, summons service, establishment of child support and medical support orders, and collection, disbursement and enforcement of child support payments. Custodial parents applying for or receiving cash assistance benefits are automatically referred to an OCSE Borough Office for child support services and are required to comply in order to get full benefits for their family. Parents not receiving cash assistance must apply for services by visiting the OCSE office in the family court in the borough where they live. Once a child support order is established, it remains in effect until the child reaches age 21 or becomes self-supporting, unless the court orders otherwise.

For fiscal year 2011, OCSE collected \$ 718.3 million for New York City's children, an increase of 4.7 percent over fiscal year 2010. This is an increase of almost \$32 million from FY 10. For calendar year 2011, collections totaled more than \$731 million, a 4.5% increase over calendar year 2010. Since 2004, OCSE has increased its collections by 36 percent. OCSE distributed 91% of the 2011 child support collections to families. (DSS retains the remainder) This can make a real difference for low-income families struggling to stay out of poverty.

OCSE has implemented several programs and initiatives to help parents understand the benefits of child support, their rights and responsibilities in the formal child support process, and manage their child support cases.

Outreach Services - OCSE's Division of Parent and Community Engagement has achieved significant milestones in establishing relationships with community based organizations, faith based groups, and government agencies to increase understanding of the child support program. The goals of the division are to educate both custodial (CPs) and noncustodial (NCPs) parents about the benefits of child support, help CPs and NCPs navigate the child support program, and help NCPs become proactive in managing their child support cases in order to avoid arrears. Staff provides training, workshops, and individual child support case review to programs serving parents.

Homeless Shelter Outreach - In collaboration with FIA and the Department of Homeless Services (DHS), OCSE is working to open child support cases for homeless families already living in shelters and applying for cash assistance. For these families, OCSE offers child support appointments on the

same day as their cash assistance interview. In FY 11, OCSE staff interviewed 13,651 homeless cash assistance clients and forwarded 3,843 for child support court hearings.

Employment Services– OCSE is committed to helping NCPs who are unemployed or underemployed to obtain employment so they can meet their child support obligations.

- **Support Through Employment Program (STEP)** refers NCPs directly from their court hearings to meet with an OCSE STEP worker for a referral to a vendor providing employments services. STEP is successful in collecting child support from NCPs. As of calendar year 2011, OCSE has collected \$ 31 million in child support from all NCPs referred into the program since inception in 2002.
- **Employment Opportunities Program (EOP)** – NCPs can receive employment services through participating vendors without a referral from OCSE or court. OCSE provides a list of vendors that NCPs can contact directly.
- **HRA Back to Work (BTW) employment vendors**, who predominately serve recipients of cash assistance (CA), have partnered with OCSE to employ full-time Child Support Specialists that provide direct intervention services for custodial (CPs) and noncustodial (NCPs) parents referred to them as part of the BTW initiative. These Specialists provide high-touch case-management services designed to address any child support challenges before the CA recipient enters the workforce. In this effort, they provide individual consultation, connect participants to direct services, offer workshops on the child support program, and may even offer parenting classes in addition to job services. The objective is to address CPs’ and NCPs’ child support challenges as part of the broader workforce re-entry service delivery.
- **Low Income Dads (LIDs)**
OCSE fully launched a new integrated employment program for low income fathers in 2011. Low Income Dads (LIDs) combines traditional employment services with strong social services support. The three year pilot program was awarded to the Center for Employment Opportunities (CEO) and serves low income fathers in the Bronx and Brooklyn. As of December, 2011, LIDS has enrolled 180 noncustodial fathers toward the program goal of serving 600 participants. CEO provides enhanced support around parenting, child support counseling and mediation with the custodial parent with the goal of seeing better outcomes in terms of employment, child support payment, connection with the child(ren) and ability to co-parent with the child’s mother.

No Kidding: Straight Talk from Teen Parents - is a joint effort with the Department of Education (DOE) and the Department of Health and Mental Hygiene that promotes pregnancy prevention through responsible parenting education. Peer Educators (PEs), who are teen parents, present a four session program to high school students using fun and interactive workshops highlighting the responsibilities and challenges of young parenting. The program encourages students to delay parenting until later in life, when they are more mature, better emotionally and financially prepared

and in a committed relationship. The program has been steadily gaining momentum, increasing the number of peer educators and expanding beyond high schools. In 2011, No Kidding continued to offer its' message to at risk youth in NYC high schools as well as the Division of Juvenile Justice Detention Centers and the Division of Youth and Community Services Summer Youth Programs. Since No Kidding started, the Peer Educators have presented to nearly 4,000 participants.

Debt Reduction Programs

OCSE believes that NCPs want to support their children but may be hindered by high child support arrears and child support orders that are not in line with their current income. To encourage NCPs to pay child support and, as a result, take an active role in the lives of their children, OCSE developed three programs to reduce child support orders and arrears owed to the Department of Social Services without a court hearing.

- ***Modify DSS Orders (MDO)*** - lowers child support orders payable to the Department of Social Services for NCPs living at or below the NYS Self-Support Reserve (\$14,702 for 2011 for a household size of one), without going to court. As of December 2011, 122 NCPs have had their average monthly orders reduced by \$284 from \$327 to \$43.

DSS Arrears Cap- adjusts arrears (child support debt) owed to DSS down to \$500 for NCPs who were earning at or below the federal poverty level (\$10,890 for 2011 for a household size of one) when the arrears accumulated, without going to court. As of December, 2011, 824 NCPs had their total arrears reduced by more than \$ 8.5 million. The number of NCPs participating in the MDO and DSS Arrears Cap initiatives paying child support increased from 52 percent to 74 percent.

- ***Arrears Credit Program (ACP)***- helps NCPs who have accumulated arrears at a time when they did not live below the Federal Poverty Level. Participants can earn a credit toward arrears owed to DSS if they remain in good standing on their current support payments. The maximum credit participants can earn is \$15,000 over three years. NCPs can enroll in the program at OCSE's Customer Service Walk-In Center. Since its initiation, 20 NCPs have signed up for ACP.

Re-Entry

Rikers Island Initiative

OCSE has a weekly staff presence at Rikers Island to educate and provide information about child support to inmates through workshops and 1:1 counseling. In 2011, 1,333 inmates participated in a "child support orientation," and 502 received individual consultations from OCSE staff on site to discuss the rules governing child support, review their cases, and determine if they qualify for the MDO or Arrears Cap Programs.

Queensboro

Queensboro Correctional Facility, a male minimum-security prison for inmates who will soon be paroled to one of the five boroughs, offers an intensive re-entry program with various classes to help inmates develop a release plan. In 2011, OCSE was asked to participate by providing Outreach Specialists to educate inmates, on-site, about their responsibility to support their children. Since this program began, 895 inmates attended child support orientations and 259 requested to have their cases reviewed. Of those, 187 requested individual consultations with OCSE Outreach Staff.

DOE Fund

In 2011, OCSE continued its longstanding partnership with The Doe Fund, a New York workforce development and human services nonprofit providing paid transitional work, skills training, and job placement to homeless and formerly incarcerated individuals through its flagship Ready, Willing & Able program. Since the program's inception, 209 NCP's have participated and a total of \$206,932 have been collected.

Problem Solving Court

In an effort to make the child support process a more positive experience, OCSE launched a Problem Solving Court pilot in Brooklyn Family Court, in partnership with the State Office of Court Administration (OCA), the nonprofit Center for Court Innovation (CCI), and FECS. This initiative connects low-income NCPs, who are in court for non-payment of child support, to employment and other services. The Problem Solving Court model utilizes the court experience as an opportunity for intervention and a positive outcome. A service plan is developed which may include job placement, education, financial counseling, legal assistance and other individualized services. All participants are held accountable through weekly **compliance** hearings. Success is established when an NCP has been employed and made child support payments for six months. The program is currently serving 82 NCPs who owe an average of \$13,856 in arrears. To date 14 participants have received order modifications and there have been 12 graduations for participants who successfully completed the program. For all participants, child support collection amounts have increased from \$24,352.50 (three months prior to participation) to a total of \$90,332.88 (since entering the program).

CAAP

The Cash Assistance Agreement Pilot (CAAP) was developed in 2011 to increase compliance with child support for cash assistance families by implementing a new approach to establishing orders in a supportive, positive environment. NCPs and CPs who meet the CAAP eligibility criteria are not required to have a court hearing. They have the opportunity to have paternity, support and medical support established by entering into an agreement in OCSE's Customer Service Walk-In Center. By offering this service, we expect more parents will keep their child support appointments, and we will experience an increase in the number of orders established ultimately collecting more money on behalf of the NYC children we serve.

Mediation

OCSE believes that encouraging participation in mediation outside of the court environment can

help families resolve some of their problems and remove barriers to paying child support. Because some community-based organizations offer mediation at little or no cost, it's often an easier and cheaper alternative to settling issues in Family Court. Mediation services are provided to parents through a referral list of providers. OCSE informs parents about free and low-cost mediation services through its outreach materials and website.

NYS NCP EITC

The New York State Noncustodial Parent Earned Income Tax Credit (NCP/EITC) helps reduce the amount of taxes owed, reduce child support arrears owed and in many cases give money directly to NCPs. The NCP/EITC is available to low-income working NCPs who have paid 100% of the child support due for the tax year. Every year we send out letters to over 60,000 NCPs who have remained current on their orders to remind them of this opportunity. Prior to tax year 2006, the first year this credit was implemented, there was no tax break for paying child support. OCSE includes NCP/EITC information and publications in its presentations to community partners and works with the NYC Office of Consumer Affairs Office Financial Empowerment to reach out on a broader basis to noncustodial parents who may qualify for this benefit.

Office of Community Affairs and Immigrant Services (OCAIS)

During 2011, the Office of Community Affairs and Immigrant Services (OCAIS) communicated with constituents through more than two million phone calls and close to 8000 letters and emails from constituents, elected officials and advocacy groups. HRA Community Coordinators regularly met with 59 community boards citywide and logged 850 community-based field visits. OCAIS staff is available to work closely with both constituents and public officials who have HRA-related inquiries.

The *Office of Refugee and Immigrant Affairs (ORIA)* is within OCAIS and was created in 2000 as a dedicated unit to maintain and expand HRA's tradition of serving limited English proficiency (LEP) individuals, refugees and immigrants. ORIA monitors HRA's LEP client contact points, centralizes management of translation and interpretation contracts, assists program areas in drafting and implementing policies regarding service to LEP clients, contracts for testing of prospective bilingual workers and provides training to Agency staff on utilizing interpretation services, compliance with NYC Local Law 73 and Executive Order 120, and the complexities of determining eligibility for immigrants.

ORIA has worked to improve immigrant and LEP access at all HRA offices around the city through the provision of on-site interpretation services, instant telephonic interpretation in over 180 languages, bilingual testing and written translation of key client-contact forms and notices. In FY 2011, HRA completed 914,256 customer requests for interpretation services. In FY 2011, HRA translated 1,243 documents.

To further increase the awareness of free interpretation services at HRA facilities to assist in the process of applying for and/or maintaining public benefits all HRA sites post multi-lingual signs

advising clients of the services. In addition, the majority of HRA's frontline staff participated in two language access trainings during 2011 and benefited from the prior year's installation of over 2,000 dual telephonic handsets at frontline worker workstations to ease access to telephonic interpretation services at Job and Food Stamp Centers for both workers and clients.

EXPLANATION OF INDICATORS

CENSUS DATA

The source for the 2010 Census demographic and socioeconomic data is from New York City's Department of City Planning.

PROGRAM DATA

Included for New York City, each borough and each community district is the data relating to Public Assistance, Food Stamps, Medicaid, and SSI programs as of October 2011. The geographic breakdowns are based on address information provided by clients. *Child Support Case with Orders* and *Child Support Collected (millions)* are now included in the Program Data section. As of October 2005, the methodology for calculating the Community data has changed and should not be used to compare data from prior years.

DIRECT SERVICE OFFICES

The direct service offices run by HRA program areas are broken down by borough and community district. Identified is the community district of their location although many of the direct service offices serve multiple community districts and/or multiple boroughs.

CONTRACT SERVICES - Planned for fiscal year 2012 (As of November 2011)

The DRS includes a list of human service contracts based on the Contractor's address. Information for these contracts includes type of service, contractual dates, contractor's name and address and contract amount. Contract addresses may not represent the areas served by the contract since the address may only be an administrative address and many contracts serve multiple community districts, as well as multiple boroughs.
