

EMERGENCY PREPAREDNESS

What to Know if You Have Pets

Think about where you will go with your pet and how you will get there if you have to leave home during an emergency. Plan to shelter your pet at a kennel or with friends or relatives outside the evacuation area.

- Develop an Emergency Plan for your Pet. NYC Emergency Management created a guide to help you prepare an [emergency plan if you have pets](#). It is available online in [additional languages](#) and you can call 311 to request a copy.
- Make sure your pet is always wearing a collar
- If you are going to a temporary location, add your temporary location to your pet's collar
- Just as you do with your [family's emergency supply kit](#), think first about the basics for survival, particularly food and water. If your pet has special medical or dietary requirements, make sure to add them to your kit.
