Development over streets

In R9 or R10 Districts when the air space above a #street# or portion thereof is closed, demapped and conveyed by the City to the owner of an adjoining #zoning lot# owned by a non-profit institution pursuant to State enabling legislation enacted in 1971, the City Planning Commission may, by special permit, allow in such demapped air-space, ~~considered as part of the adjoining #zoning lot#,~~ the #development# or #enlargement# of #buildings# which are an expansion of an existing hospital, college, university or functionally-related facility. In connection therewith, the Commission may also permit modification of off-street loading and #bulk# regulations, except #floor area ratio# regulations, under the applicable district regulation, provided that. ~~In addition to the requirements set forth in the 1973 Agreement among the City of New York, the Society of the New York Hospital, and the New York Society for the Relief of the Ruptured and Crippled, maintaining the Hospital for Special Surgery, and the Rockefeller University are met; and that such demapped air space shall be considered as part of the adjoining #zoning lot#, except that any #building# located in demapped air space shall utilize only unused #floor area# from the portion of the adjoining #zoning lot# not within the demapped air space.~~

In order to grant such special permit the Commission shall find ~~that~~:

- (a) for #development# or #enlargements# in such demapped air space and for modification of #bulk# regulations, that the location and distribution of new #bulk# shall result in a good site plan in relation to the existing #buildings# on site and in the area, ~~the location and distribution of new #bulk# result in a good~~

site _____ plan; and

~~(b) any #building# located in demapped air space utilizes only unused #floor area# from the portion of the adjoining #zoning lot# not within the demapped air space; and~~

~~(c) any #building# located in the demapped air space shall comply with the #accessory# off street parking and loading requirements of the applicable district.~~

(a) for modification of off-street loading requirements, when such non-profit institution includes more than one #building# on two or more #zoning lots#, the City Planning Commission may determine the required number of loading berths as if such non-profit institution were located on a single #zoning lot#, and may permit such loading berths to be located anywhere within such institution without regard for #zoning lot lines#, provided that such loading berths will be:

(1) adequate to serve the requirements of the institution;

(2) accessible to all the #uses# in such institution without the need to cross any #street# at grade; and

(3) located so as not to adversely affect the movement of pedestrians or vehicles on the #streets# within or surrounding such institution.

The Commission may impose additional conditions and safeguards, consistent with the requirements set forth in the 1973 Agreement, to improve the quality of the #development# and minimize adverse effects on the character of the surrounding area.

The #curb level# of a #zoning lot# of which the demapped air space is a part shall not be affected by the closing and demapping of air space above such #street#. However, the Commission may establish an appropriate level or levels instead of #curb level# as the reference plane for the applicable regulations relating to #open space#, #yards#, level of #yards#, equivalent #rear yards#, #rear yard# setback, minimum distance between #buildings#, and the front height and setback.

Resolution for adoption scheduling July 2, 2008 for a public hearing.

74-92

Use Groups 3A and 4A Community Facilities and Certain Large Retail Establishments in Manufacturing Districts

74-921

Use Groups 3A and 4A community facilities

(a) Use modifications for Use Groups 3A and 4A in M1 Districts

In M1 Districts, except for houses of worship, the City Planning Commission may permit #uses# listed in Use Group 4A - Community Facilities and, in M1-5 Districts, except in M1-5A, M1-5B and M1-5M Districts, the Commission may permit museums and non-commercial art galleries as listed in Use Group 3A, provided that such community facility is located not more than 400 feet from the boundary of a district where such facility is permitted as-of-right and the Commission finds that:

~~(a-1)~~ (1) an adequate separation from noise, traffic and other adverse effects of the surrounding non-residential districts# is achieved through the use of sound-attenuating exterior wall and window construction or by the provision of adequate open areas along #lot lines# of the #zoning lot#;

~~(b-2)~~ (2) such facility is so located as to draw a minimum of vehicular traffic to and through local #streets# and that such #use# will not produce traffic congestion or other adverse effects that interfere with the appropriate #use# of land in the district or in any adjacent district;

~~(e-3)~~ (3) where applicable, adequate reservoir space at the vehicular entrance and sufficient vehicular entrances and exits are provided to prevent congestion;

~~(d-4)~~ (4) in selecting the site, due consideration has been given to the proximity and adequacy of bus and rapid transit facilities;

~~(e-5)~~ (5) for a Use Group 4A #use#, within the neighborhood primarily to be served by the community facility, there is no practical possibility of obtaining a site of adequate size located in a district where it is permitted as-of-right because appropriate sites in such districts are occupied by substantial improvements; and

~~(f-6)~~ (6) such facility will not impair the essential character of the surrounding area.

The provisions of this special permit relating to Use Group 3A museums and non-commercial art galleries shall be inapplicable to the #Special Tribeca Mixed Use District#.

(b) Bulk modifications for museums in M1-5 Districts

For a #building# containing a museum #use# listed in Use Group 3A, in an M1-5 District, on a #zoning lot# over which the High Line (as defined in Section 98-01) passes, the Commission may modify height and setback regulations, provided that such modifications:

(1) provide a better distribution of #bulk# on the #zoning lot#;

- (2) result in a better relationship of the #building# to open areas including the High Line, adjacent #streets# and surrounding #developments#;
- (3) provide adequate light and air for #buildings# on the #zoning lot# and do not adversely affect adjacent #zoning lots# by unduly restricting access to light and air to surrounding #streets# and properties; and
- (4) result in a #development# that facilitates the public's use and enjoyment of the High Line.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.
