STATEMENT OF BASIS AND PURPOSE

The City Planning Commission is proposing to amend its rules pursuant to its authority under Sections 192 and 1043 of the New York City Charter.

Amendments to Chapter 3 of Title 62 of the Rules of the City of New York would increase fees for the processing and review of City Environmental Quality Review (CEQR) applications and of land use applications by 8% to reflect increased labor costs.

Supplemental land use application fees would be established for large projects of over of 500,000 square feet of floor area. A supplemental CEQR fee would also be required for projects for which a restrictive declaration to ensure compliance with project components related to the environment and/or mitigation of significant adverse impacts will be executed. The supplemental fees would capture the costs of the additional work that is required of Department staff in connection with large projects, and projects for which a restrictive declaration to ensure compliance with project components related to the environment and mitigation measures will be executed.

In addition to the changes described above, Section 3-07 of the land use fee rule has been clarified to establish that for certain authorizations, the fee for a project with non-residential uses is the same as the fee for a project with open uses. The lower fee for certain residential uses is not applicable if the project also contains a commercial or community facility use.

Resolution for adoption scheduling June 17, 2009 for a public hearing.
