Name, Description and Location of Proposal:

285 East 138th Street (Tres Puentes)

The Applicant, Westside Federation of Senior and Supportive Housing, is seeking a Zoning Map Amendment to rezone a portion of an R6 district to R7-2, R7-2/C2-4, R7-2/C1-4, and R6/C1-4; a Zoning Text Amendment to modify ZR Section 74-745 to permit reduction or waiver for parking requirements for non-profit residences for the elderly in R7-2 districts within Bronx Community District 1; Special Permits for a General Large Scale Development pursuant to ZR 74-74, as modified, to amend bulk requirements and reduce required parking; a Zoning Authorization pursuant to ZR 36-72 to reduce required bicycle parking; and modification to cancel the Restrictive Declaration (D-34) to permit the enlargement of an existing 145-unit HUD-assisted senior housing development, known as Borinquen Court, located at 285 East 138th Street (the "Project Site") with two new buildings. The Project Site is identified as Block 2314, Lot 1, and is located immediately adjacent to the Mott Haven Historic District, in Bronx Community District 1.

The proposed action would facilitate a proposal by the Applicant to enlarge Borinquen Court with two new buildings: an 8-story (maximum 85' tall), ±57,700 gross square feet residential building, and a 12-story (maximum 125' tall), ±129,900 gross square feet residential building. Borinquen Court currently includes ±134,300 gross square feet of floor area and 145 dwelling units for seniors. The two new buildings would contain a total of 178 dwelling units all of which would be income-restricted units for seniors and/or physically handicapped persons, and would be connected to Borinquen Court by enclosed walkways. The two new buildings would be built on areas currently utilized for parking and landscaped recreation area. When completed, Borinquen Court and the two new buildings would contain 321,900 gross square feet of floor area, 323 residential units, and 10 parking spaces, and would be known as Tres Puentes.

Carl Weisbrod, *Chairman*
22 Reade Street, New York, N.Y. 10007-1216

<http://www.nyc.gov/planning>

The proposed Zoning Map Amendment would affect the Project Site (Block 2314, Lot 1) as well as the two adjacent lots identified as Block 2314, lots 29 and 30. The two adjacent lots are located within the Mott Haven Historic District, and contain the 10th Precinct Police Station (Lot 30) and a ten-unit apartment building (Lot 29). Under the proposed Zoning Map Amendment, these two properties would be rezoned from R6 to R6/C1-4. It is not expected that these properties would take advantage of the commercial overlay and be redeveloped under the proposed zoning because the Police Station is an active use on a city-owned property and the ten-unit apartment building's floor plan cannot accommodate a separate entrance for a commercial space. The proposed Zoning Text Amendment would affect all R7-2 zoning districts within Bronx Community District 1; however, the Project Site is the only property in an R7-2 district in Bronx Community District 1 that is developed with non-profit residences for the elderly; therefore, the text amendment would be applicable only to the Project Site. The proposed Zoning Authorization, Special Permit and modification to the Restrictive Declaration would not affect any properties other than the Project Site.

The expected build year for the project is 2017. Absent the proposed action, the existing Borinquen Court development is expected to remain unchanged.

Statement of No Significant Effect:

The Environmental Assessment and Review Division of the Department of City Planning, on behalf of the City Planning Commission, has completed its technical review of the Environmental Assessment Statement, dated April 13, 2015, prepared in connection with the ULURP Applications (Nos. N150287ZRX, N1502290ZAX, 150289ZSX, and 150288ZMX). The City Planning Commission has determined that the proposed action will have no significant effect on the quality of the environment.

Supporting Statement:

The above determination is based on an environmental assessment which finds that:

1. The proposed action would not result in significant adverse impacts to historic resources. Because the Project Site is located within 90 feet of the Mott Haven Historic District, any new development on the Project Site would need to comply with the procedures included in the NYC Department of Buildings Technical Policy Procedure Notice #10/88 and LPC's Guidelines for Construction Adjacent to a Historic Landmark and Protection Programs for Landmark Buildings. Pursuant to these procedures, a Construction Protection Plan (CPP) is required. The CPP would be prepared and submitted to LPC prior to the start of construction.
2. No other significant effects on the environment which would require an Environmental Impact Statement are foreseeable.

This Negative Declaration has been prepared in accordance with Article 8 of the Environmental Conservation Law 6NYCRR part 617.

Should you have any questions pertaining to this Negative Declaration, you may contact Evren Ulker-Kacar, AICP at (212) 720-3419.
