ENVIRONMENTAL REVIEW

DEPARTMENT OF CITY PLANNING/LA-CEQR-M

Project number

Date received

Project: HUDSON SQUARE/TRINITY REZONING

Archeology comments only:

LPC review of archaeological sensitivity models and historic maps indicates that there is potential for the recovery of remains from 19th Century occupation for the following Borough, Block and Lot location(s) within the study area: 1004770066, 1005790044. Accordingly, the Commission recommends that an archaeological documentary study be performed for these location(s) to clarify these initial findings and provide the threshold for the next level of review, if such review is necessary (see CEQR Technical Manual 2001).

There are no further archeological concerns for the following Borough, Block and Lot location(s) within the study area:

1002270063
1002270069
1002270070
1002270076

ENVIRONMENTAL REVIEW

Project number: DEPARTMENT OF CITY PLANNING / 12DCP045M
Project: HUDSON SQUARE/TRINITY REZONING
Date received: 5/23/2012

Comments:

The LPC is in receipt of the DEIS Historic and Cultural Resources Chapter 7, dated 5/14/12; Mitigation Chapter 20, dated 5/11; and Unavoidable Adverse Impacts Chapter 25, dated 5/11. The text is acceptable for architecture and archaeology, see comments below for archaeology.

The LPC notes that the text pertaining to archaeological resources is acceptable, but one minor change is needed which is that on page 7-2, the text now states, "This testing would be completed in consultation with LPC" and it should be revised to state, "This testing, and any subsequent archaeology that may be needed, would be completed in consultation with LPC."
