INTRODUCTION

The annual Statements of Community District Needs (CD Needs Statements) and the Community Board Budget Requests (Budget Requests) are Charter requirements and an integral part of the City's budget process. When developed through informed planning and careful consideration, CD Needs Statements and Budget Requests can play an important role in consultations of community boards with agencies, elected officials and other key stakeholders on a broad range of local planning and budget priorities. These tools also provide a valuable public resource for neighborhood planning and research purposes, and are used by a wide audience seeking information about New York City's diverse communities.

This year, for the first time, community boards electronically submitted a CD Needs Statement combined with their Budget Requests. The goal of these improvements is to simplify preparation of both documents for the community boards and to make the information community boards provide more easily accessible for City agencies and other stakeholders. Simplified and more efficient processes will allow all parties involved in the budget process to consider budget decisions more thoroughly, with better results for all New Yorkers.

This report represents Manhattan Community Board 4's Statement of Community District Needs and Community Board Budget Requests for Fiscal Year (FY) 2017. This report contains the formatted but otherwise unedited content provided by the Community Board which is displayed in italics.

Some community boards provided substantive supplemental information. This supportive material can be accessed by clicking on the links provided in the document or by copying and pasting them into a browser.

2. OVERVIEW OF COMMUNITY DISTRICT

Manhattan Community Board 4 provided the following overview of their district:

Manhattan Community District 4 (CD4) is comprised of two existing West Side neighborhoods: Chelsea to the south and Clinton/Hell's Kitchen to the north, and the new Hudson Yards emerging in the West 30s. CD4 spans the area from W. 14th to W. 59th Streets (from west of Eighth Avenue to the Hudson River north of W. 26th Street, and west of Sixth Avenue to the Hudson River south of W. 26th Street). CD4 shares borders with Greenwich Village, the Flatiron, the Upper West Side and the Midtown central business district. Portions of several other well-known areas exist within CD4's boundaries: the Garment District, Flower District, Gansevoort Meat Packing District, Ladies' Mile Shopping District, Hudson Yards and Theater District. Other notable sites in CD4 include: Restaurant Row, The High Line, Intrepid, Circle Line, Javits Center, the Rubin Museum, Chelsea art galleries, Columbus Circle, Maritime Piers 56 - 99, Farley Building/Moynihan Station, Lincoln Tunnel, Port Authority Bus Terminal and the northern half of Hudson River Park. The total population of CD4 has grown from approximately 87,000 in 2000 to over 104,000 according to the 2010 Census. This represents a 19% growth overall, much of it concentrated in the rezoned areas and a faster growth rate than most parts of New York City. CB4's priorities (all of equal weight, and shown here in no particular order) are:

- Creating additional green spaces; schools; educational, community and cultural facility spaces,*
- Developing a coherent transportation infrastructure for our district including strengthening and improving public bus and rapid transit and fostering a better balance in street usage between pedestrians, bicycles and vehicles especially buses,*
- Attracting development that makes available more affordable housing that is permanent and enhances diversity and positive neighborhood relations among disparate groups,*
- Maintaining neighborhood character and supporting the stability of a long standing local retail presence in our communities,*
- Preventing displacement and eviction of residents and small businesses and*
- Improving environmental quality of air, water, and land.*

As a result of recent rezoning, significant new commercial and residential development is now possible in formerly industrial districts. The Community Board has strived for balance between the redevelopment of these areas with the preservation and expansion of the district's residential neighborhoods. A major priority is ensuring that new development helps produce more permanent affordable housing. Development of large scale proposals - for the corridor between West 30th and West 35th Streets; - development above the MTA; West Side Yard; Port Authority Bus Terminal, Amtrak's Gateway Tunnel proposal; and the conversion of the Farley Post Office into the new Moynihan Train Station; - will similarly require an approach that balances local and regional needs. Most Important Issues: Large segments of our neighborhoods are under construction putting a lot of pressure on transportation and deteriorating the quality of life of residents. The rapid increase in land value is accelerating the displacement of many long time tenants and services, while the new benefits of the development have yet to materialize. The Port Authority Bus Terminal and the Lincoln Tunnel which occupy a large swath of our district, are also losing space to new development and their operations is increasingly incompatible with the new residential zoning. Our main issues are:

- Completing the city commitments generated by previous rezoning actions (Affordable housing, Bus Garage, Parks, Arts Space)*
- Preserving affordable housing*
- Preserve affordable commercial space for businesses and arts*
- Creating affordable housing for people making between 60 and 80% of AMI*
- Increasing public safety in transportation*
- Addressing the quality of life issues associated with construction, a multitude of bars and restaurants and poor sanitation services.*
- Increase Lack of parkland, school crowding and services to homeless, seniors and youth rank also high in our concerns.*

3. MAIN ISSUES

As part of this year's process, community boards were asked to select from a list the three most pressing issues facing their district. Manhattan Community Board 4 identified the following three issues:

- *Affordable housing*
- *Quality of life issues and neighborhood preservation*
- *Traffic*

Manhattan Community Board 4 provided the following explanation for their choices:

The massive rezoning actions on the west side have created thousands of market rate units. It made the neighborhoods of Chelsea & Hell's kitchen very attractive and expensive. This increasingly expensive supply has accelerated the loss of affordable units and it is threatening the preservation of the neighborhood character with loss of diversity in residents as well as in businesses. This increase in population puts additional stress on an underfunded transportation system such as Port Authority Bus Terminal and the MTA and also results in an increase vehicle traffic through Lincoln tunnel which continues to be a major safety and quality of life concern. Additional, there were agencies and issues not addressed in this application which have been listed below.

Landmarks Preservation Commission (LPC) Main Issue: Threats to significant historic resources. The Board is deeply concerned that the pressure from development in CD4 is threatening significant historic resources both in recently rezoned areas and in existing areas where the zoning was originally designed to be protective. LPC Budget Requests: Put a higher priority on Landmark identified historical properties threatened by Hudson Yards development. Amend current procedures to include Community Board in review of staff level decisions in existing landmarks

Department of Consumer Affairs (DCA): Main Issue: The proliferation of eating and drinking establishments in CD4. The emergence of the district, particularly Hell's Kitchen, as a regional recreation area for the whole City and even the metropolitan district, has created problems overwhelming the enforcement capabilities of relevant agencies. Budget Requests: Coordination of complaints: There needs to be more coordination between complaints received by the 311 system and active staff in the field, as well as a communication to the public of how each complaint is disposed of. More Education and support to current staff assigned to the enforcement of stipulations for the proper operations of sidewalk cafés Allocate more inspectors to curb sidewalk encroachments and quality of life violations, like sidewalk cafes, parking and cabarets disturbances.

4. SUMMARY OF COMMUNITY DISTRICT NEEDS AND COMMUNITY BOARD BUDGET REQUESTS

Community Boards were asked to identify their district's needs related to the following seven policy areas:

- Health Care and Human Services;
- Youth, Education and Child Welfare;
- Public Safety;
- Core Infrastructure and City Services;
- Land Use, Housing and Economic Development;
- Transportation; and
- Parks, Cultural and other Community Facilities.

Based on the needs identified, community boards then had the opportunity to make budget requests to address these needs.

The following sections describe the specific needs and budget requests of Manhattan Community Board 4 for FY 2017.

4.1. Health Care and Human Services Needs and Requests

Main Issue

Services to reduce homelessness

The Community Board provided the following explanation for the above issue:

Homelessness has been increasing over the past few years. Large public facilities located within our district, such as the Port Authority Bus Terminal (where recent issues of human trafficking have arisen) are also a natural gathering place for people without homes. Many homeless people need social services, in particular drug treatment and/or mental health services. The presence of very large homeless shelters (BRC) and drug rehabilitation centers had also brought major stress to the community. Location and size will be important to consider in future new centers.

Community District Needs and Requests

4.1.1. Community District Needs and Requests Related to Health Care Facilities and Programming

The Community Board provided the following high level comments and background on the District's needs:

Over the last 10 years, HIV rates in the Chelsea/Clinton area were 50% higher than NYC. People over 50 years old comprised 19% of all AIDS diagnosis, 29% of those of those living with AIDS and 35% of deaths of persons with AIDS.

The Community Board submitted the following budget requests:

Budget Requests are listed for informational purposes only. OMB maintains the definitive list that may have more updated information on request for agencies, published in its Register.

Expense Requests related to Health Care Facilities and Programming (as provided by the Community Board)

Priority numbers apply to expense budget requests from all policy areas. A complete list of expense budget requests by this Board sorted by priority can be found in Section 5.2. of this document.

4.1.2. Community District Needs and Requests Related to Facilities and Programming for Older New Yorkers

The Community Board provided the following high level comments and background on the District's needs:

According to the US Bureau of the Census, there are 16,972 individuals (12.1%) over 65 years of age living in the Chelsea/Clinton Neighborhoods. The majority of them, 52.3%, live alone, The vast majority live in rental apartments, 21% of those living in public housing are elderly; 37.1% of the seniors have income below \$20,000 a year; 27.3% had incomes between \$20,000 – \$50,000; and 14% have mobility and self-care impairments. The number of people over age 65 began to increase substantially beginning in 2011 as the oldest members of the baby-boom generation reach the 65-year mark. The number of people age 65 or older will nearly double between 2000 and 2030. To better understand the growing needs of our seniors, in 2013, the Board partnered with The Actors Fund (a human service organization for the performing arts with many constituents living in Community District 4), Visiting Nurse Service of New York and the Rodney Kirk Center of Manhattan Plaza (a 1700 unit Section 8 building for the performing arts with over 1100 seniors) to conduct a survey of seniors residing in Community District 4. An Advisory Committee of over 40 senior service, health care, affordable housing providers, local political representatives and entertainment unions came together to focus on the needs, concerns and supports required for this community. Since the completion of the survey, with the help of Councilman Corey Johnson's office, the Advisory Committee continues to meet and coordinate efforts to improve the quality of life for seniors in CD4. Priorities for the Committee include:

- Education/Outreach to seniors about the increase of SCRIE
- Campaign to identify and promote Age Friendly local business
- Expansion of affordable mental health services for seniors and medical home visit programs
- Support services for caregivers of the frail elderly
- A Housing Agenda for Older New Yorkers

4.2. Youth, Education and Child Welfare Needs and Requests

Main Issue

Capacity of educational facilities

The Community Board provided the following explanation for the above issue:

The current number of schools in CD4 cannot meet the increasing number of school age children who will be living in new residential developments throughout the community. The Board wants better measures to assess the number of additional residents living in CD4 with particular emphasis on the number of school age children and the number of public schools that can accommodate this population.

Community District Needs and Requests

4.2.1. Community District Needs and Requests Related to Educational Facilities and Programs

The Community Board provided the following high level comments and background on the District's needs:

As the population in Community Board 4 continues to grow, we need to address how education demands will be met. Development on the west side, including The Hudson Yards, will bring more children into the district schools - and impact schools that are already operating at full capacity. We will work with city officials to determine how they plan to address these needs for elementary, middle school and high school.

4.3. Public Safety Needs and Requests

Main Issue

Other | Traffic Safety and Nightlife Nuisances

The Community Board provided the following explanation for the above issue:

Violation of City traffic regulations is a major quality of life issue in our district is made more urgent with the increased number of residents, schools and school children and the presence of numerous tourists. In addition, with the reductions achieved in many categories of crimes, more focus can now be applied to quality of life issues in our community and the enforcement of quality of life regulations.

Community District Needs and Requests

4.3.1. Community District Needs and Requests Related to Policing and Crime

The Community Board provided the following high level comments and background on the District's needs:

With the development of the Hudson Yards district underway, the addition of tens of thousands of residents, the installation of new tourist destinations (Whitney museum, High line, Hudson Boulevard and Park) and new commuter flows (#7 subway) our current precincts are stretched to the limit.

4.4. Core Infrastructure and City Services Needs and Requests

Main Issue

Cleanliness/trash collection

The Community Board provided the following explanation for the above issue:

The street sanitation situation has much worsened in the high traffic corridors of 8th and 9th Avenues. There seems to a decrease in the frequency of pick-up of garbage in the public wastebaskets. Pest control continues to be a serious problem due to poor garbage storage. MCD4 does not have a sufficient number of DSNY trash pickup trucks, while the population increases rapidly. In addition, with the increase in restaurant in the district, multiple sandwich boards, menus stands, plants etc. have appeared on sidewalks making it nearly impossible for pedestrians to navigate on the sidewalk on 9th Avenue, north of 34th street and on 8th Avenue. Increased enforcement is required to ensure a safe pedestrian experience.

Community District Needs and Requests

4.4.1. Community District Needs and Requests Related to Water, Sewers and Environmental Protection

The Community Board provided the following high level comments and background on the District's needs:

All of coast line of MCD4 is categorized as a High Risk Flood Zone as well as portions of Chelsea. MCD4 is especially concerned about the Southern and Western areas of MCD4 and the entrances to the Lincoln & Amtrak tunnels. According to the New York City Department of Health and Mental Hygiene, this community suffers the second highest incidents of chronic lung disease of any community in Manhattan south of Harlem. Given the proximity of the Chelsea and Clinton/Hell's Kitchen neighborhoods to the Lincoln Tunnel and to the Port Authority Bus Terminal, MCD4 is at particular risk from unhealthy air affected by emissions from motor vehicles, especially from diesel engines in trucks and buses. Another major cause of air pollution in CD4 is carbon emissions from buildings still using "dirty boilers" that burn heating oil #4 and #6. Many of the buildings using these dirty boilers are rent-regulated and cannot (or will not) pay for the cost of converting to cleaner alternatives. Noise complaints from CD4 consistently rank among the highest registered by DEP and are rising in the Board area, especially at night. The main sources of noise are from clubs and lounges (sound equipment and revelers in the wee hours leaving), construction equipment, mechanical/air handling equipment (typically on roof tops), truck traffic (especially private sanitation trucks making pick-ups in the middle of night), emergency vehicles, honking and Fire Department Vehicles and Ambulances struck in traffic.

MCB4 would like to extend that pilot program to our district, which includes High Risk Flood Zones in some of our neighborhoods. In addition to this measure sidewalk swales used in other parts of the city should be installed within our district. The pedestrian islands that were installed to accommodate the separated bike lines along Eighth, and Nine Avenues would be optimal locations for sidewalk swales. 4.5.2. Community District Needs and Requests Related to Housing Needs and Programming

The Community Board provided the following high level comments and background on the District's needs:

As stated in Manhattan Community Board 4's Affordable Housing Plan (See attached) Affordable housing within our District is critical to house the diverse population of artists, students, minimum wage earners and seniors. This mixed population includes the backbone of the service and cultural economy of the city, as well as many of the most frail and isolated members of our community. It is critical that the city free up subsidies to replenish the inventory of affordable housing units in the West side of Manhattan. MCB4 has developed a detailed plan to generate and preserve about 10,000 units in our district. CD4 stands to lose a significant amount of affordable housing due to expiring uses in the immediate future. CD 4 is the second largest neighborhood in terms of bed and breakfast illegal conversion in the city. Most relate to affordable units. Such uses are prevalent in rent-regulated housing and in buildings receiving tax abatements programs such as 421-a and J-51 programs. The largest concentration of SRO housing in our community lies between Eighth and Ninth avenues from W. 42nd Street to W. 57th Street. In that area, there are 62 buildings that contain nearly 2,200 SRO units. The majority of those units are found on W. 51st Street where twelve buildings contain 574 units. W. 46th Street is home to the largest concentration of SRO buildings, with 21 buildings housing 289 units.

4.6. Transportation Needs and Requests

Main Issue

Traffic safety

The Community Board provided the following explanation for the above issue:

The presence of Penn Station entrances, the Port Authority Bus Terminal, the Lincoln Tunnel and the West side Highway brings a enormous volume of transient Buses, Trucks and automobiles which disregard neighborhood needs in using our public space and put them in conflict with pedestrians, tourists and commuters.

4.6.1. Community District Needs and Requests Related to Traffic and Transportation Infrastructure

The Community Board provided the following high level comments and background on the District's needs:

Trucks and buses are an increasing presence on residential streets, off-street facilities for all types of buses and commuter vans are inadequate, and environmental pollution is a constant quality of life complaint and threat to public health. Pedestrians compete with each other and obstructions on the sidewalk, with turning cars at the crossings and often find themselves walking in traffic. Finally, Pedestrian ramps are poorly Maintained.

4.7. Parks, Cultural and other Community Facilities Needs and Requests

Main Issue

Quality of parks and park facilities

The Community Board provided the following explanation for the above issue:

Manhattan Community District 4 ranks last out of Manhattan's 12 community boards when it comes to residential access within ¼ mile of a park and open space as a percent of total district square. Our neighborhood has added 20,000 residents in the last 10 years and the creation of parks has put us even further back in access to parks. In a growing neighborhood, it is critical that the city Integrate Parks Planning into Neighborhood, Citywide and Resiliency Planning along with overhauling how the Parks Department is funded. Restrict and Strongly Regulate the Privatization of Parkland and Increase Transparency and Efficiency of the Parks Department to Ensure Equitable Distribution of Resources.

Community District Needs and Requests

4.7.1. Community District Needs and Requests Related to Parks and Recreational Facilities and Programming

The Community Board provided the following high level comments and background on the District's needs:

MCBA believes open spaces add value to our quality of life. In regards to Parkland, we seek certain objectives:

- *Integrate Parks Planning into Neighborhood, Citywide and Resiliency Planning;*
- *Restrict and Strongly Regulate the Privatization of Parkland*
- *Increase Transparency and Efficiency of the Parks Department to Ensure Equitable Distribution of Resources; overhaul of how the Parks Department is funded.*
- *Each park in our district should have a full-time, on-site park keeper to address constituents' concerns, provide security and perform routine maintenance of that park alone.*
- *Funding dedicated to support Green Thumb Community Gardens and pruning for street trees;*
- *Funding directed towards full-time gardeners, maintenance workers, PEP officers, as well as seasonal aides and playground associates for the summer.*

4.7. Parks, Cultural and other Community Facilities Needs and Requests

4.7.2. Community District Needs and Requests Related to Cultural and other Community Facilities and Programming

The Community Board provided the following high level comments and background on the District's needs:

According to a study conducted by Innovative Theater Foundation and Columbia University in the Fall of 2008, close to 30% of performance spaces have closed within CD in the last eight years due to development pressures. The presence of performing arts groups, develop and give voice to new talent in areas of writing, performing, dancing, choreography, and directing. in our community vitalizes it, artistically, culturally and commercially, on a block-to-block level throughout our district. In addition, support services for theater and other artistic services within CD4 in the areas of rental storage space for art, costumes, scenery, lighting, and rehearsal studios have long been located throughout Chelsea and Clinton/Hell's Kitchen. These services are also losing viable space due to development and real estate costs. The money generated from these industries provides employment and maintains the artistic life of the city. The Board is concerned with the loss of artists' studios in the District and the displacement of working artists.
