

**B05001: NATIVITY AND CITIZENSHIP STATUS**  
**New York City and Boroughs**  
**2008-2012 American Community Survey 5-Year Estimates**

Geographic Area	Total:		U.S. Citizen								Not a U.S. citizen	
			U.S. citizen, born in the United States		U.S. citizen, born in Puerto Rico or U.S. Island Areas		U.S. citizen, born abroad of American parent(s)		U.S. citizen by naturalization			
	Estimate	Margin of Error	Estimate	Margin of Error	Estimate	Margin of Error	Estimate	Margin of Error	Estimate	Margin of Error	Estimate	Margin of Error
New York City	8,199,221	*****	4,860,493	+/-12,869	231,404	+/-4,096	83,459	+/-2,537	1,568,332	+/-8,856	1,455,533	+/-13,600
Bronx	1,386,364	*****	808,987	+/-5,221	100,056	+/-2,737	13,298	+/-1,110	205,924	+/-3,751	258,099	+/-4,975
Brooklyn	2,512,740	*****	1,487,167	+/-5,916	57,356	+/-1,850	26,605	+/-1,250	519,381	+/-5,114	422,231	+/-5,946
Manhattan	1,596,735	*****	1,084,687	+/-5,035	38,281	+/-1,550	18,519	+/-1,203	210,183	+/-3,180	245,065	+/-4,650
Queens	2,235,008	*****	1,118,833	+/-6,061	29,144	+/-1,548	21,418	+/-1,276	570,940	+/-5,289	494,673	+/-6,025
Staten Island	468,374	*****	360,819	+/-2,434	6,567	+/-670	3,619	+/-488	61,904	+/-2,219	35,465	+/-1,600

\*REFERENCE NOTES:

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

While the 2008-2012 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
