Metadata for Zoning Sketch Maps:

Source:
These PDF maps were created from scanned paper or mylar originals and from original AutoCAD drawings in the Technical Review Division's archive. Maps from 1962-2003 were created from scans of achived paper maps. From 2003 onward these PDF maps were produced directly from original AutoCAD DWG files. This set of PDFs will be continually updated as rezonings are adopted.

Scanning, and Creation of Adobe PDF copies:
Maps were scanned at 300 dpi to preserve maximum detail and originally saved to grayscale TIF image files. To facilitate viewing of the scans, they were converted to Adobe PDF format. PDFs created directly from original AutoCAD DWG files were created at 200 dpi.

Key To File-Naming Convention:
Files are named with an "skz" prefix to identify them as zoning sketch maps. This prefix is followed by either a ULURP number or a CP number.

Copyright:
These maps are copyrighted by the City of New York.
