Community Moms & Dads

Ours Strength, Our Power, Our Future

The NYC Department of Youth & Community Development (DYCD) invites you to join us in honoring Moms and Dads this June by nominating a "Community Mom" or "Community Dad" for our award.

The theme of our #DYCDCommunityMomsnDads event is "Our Strength, Our Power, Our Future" celebrating Moms and Dads as well as caregivers who provide inspiration and support to families and communities. These community moms and dads—whether volunteers, mentors, teachers, community leaders, healthcare staff, essential workers, caregivers, aunts, uncles, sisters, or brothers—dedicate their time and energy to the physical, social, and emotional well-being of our City!

We hope you'll help us celebrate them this June.

Please nominate a Community Mom or Community Dad TODAY; **the deadline for submission is Wednesday, March 13, 2024.**

In 2024, we are spotlighting the Power of Community Parenting: Raising Healthy, Happy, and Hopeful Families and Children.

Save Energy & Money While Making Your Home More Comfortable

There are hidden opportunities in every nook and cranny of your home. We'll show you how to find them.

Insulation & Air Sealing

With proper insulation and air sealing, you can maximize your home's efficiency and comfort, saving energy and money year-round. We'll cover some of the upfront costs when you weatherize your home with one of our participating contractors.

No more drafty rooms in winter or sweating in summer!

conEd.com/Weatherization

Mini-Split

Efficient air-source heat pumps, also known as mini-splits, move existing heat in the air from one place to another using electricity. In summer, they remove heat from your home like an air conditioner. In winter, they work in reverse, extracting heat from outside and bringing it into your home. We'll cover some of the upfront costs of replacing your gas, oil, or electric baseboard heating with mini-splits.

conEd.com/MiniSplit

More Ways to Save!

Already Have a Heat Pump?

Our **Select Pricing Plan** is a billing option that rewards you for spreading out your energy use throughout the day. You'll be paying for electricity based on *when* you use it and *how much* you use at different points in the day.

When you enroll, you'll receive a one year price guarantee. After a year on the plan, we'll compare your bills versus what you would have paid with your prior rate. If your bills were higher on the plan, we'll credit your account the difference—you'll never pay more than you would have on your old rate. Also, if you aren't satisfied with the new rate, you can always return to your old rate whenever you like.
