2011-12 Pediatric Follow-up Survey Response Rates
Preliminary Results as of 08/01/2012

- 1,341 total children and their parents sent surveys
- 1,031 children and their parents in NYC sent surveys
- 398 completed surveys (29.7%)
- 314 completed surveys (30.5%)
- 310 children and their parents currently living outside NYC sent surveys
- 84 completed surveys (27.1%)

Note: Enrollees under 18 years of age as of 9/1/2011 were sent children surveys and those who aged into adulthood were sent adult surveys. Children and their parents were sent separate surveys because only parents could provide a child's medical history. The response rate is based on surveys returned by both.
