### UPK IDENTIFICATION NUMBER IN WES

Programs will now be able to view, enter, and edit an UPK child's student identification number on the Attendance roster in WES. This nine-digit number, also known as the OSIS number, is supplied by the Department of Education when an UPK child is entered and approved in DOE's PreKIDS system. A preliminary match was done by ACS and DOE and matched OSIS numbers were added to children's records in WES. Please review these numbers with April attendance. Programs need to add any OSIS numbers that are currently missing for any of their UPK children. (Add or edit number within OSIS field and remember to SAVE the page when done with changes.)

### ADDITIONAL FIELDS IN WES FOR CONTRACTOR AND PROGRAMS

Additional contact and information fields have been added in WES for Contractor and Program profiles. Simply click on "Contractor Profile" (if Super User) and/or "Program Profile", from the drop-down menu and select "details". Additional information in the profile can now be added, edited and saved. Please take a moment to review, correct, and complete this information so that the system accurately reflects contact information (including email addresses!) for Board Chair, Program Directors, and emergency contact. Additionally, you should update information such as program's hours of operations, nearby transportation and languages spoken.
