COMMISSION DIRECTIVE: UPDATE

Dear Licensee,

Earlier today, The New York City Business Integrity Commission (the “Commission”) distributed a list of the commercial establishments likely affected by the emergency suspension of Sanitation Salvage Corp.’s license to collect trade waste from business located in New York City.

From that list, the Commission and NYC Department of Sanitation (“DSNY”) have identified approximately 100 commercial establishments that require container or compactor service, or are otherwise high volume customers. A list of the approximately 100 commercial establishments is attached to this update. Transition of these affected commercial establishments from DSNY temporary service to private carter service is a high priority.

The Commission Directive issued earlier today remains in effect and applies to all agreements you reach with affected commercial establishments, including, but not limited to those designated as high priority. As a reminder, you are directed to notify the Commission of all agreements you reach with the affected commercial establishments by the close of business of the same day that you reach such agreements. To provide notice to the Commission, complete all fields in the attached excel sheet and email to licensing@bic.nyc.gov. The rate cap remains in effect and your invoices and billing practices remain subject to inspection and audit by the Commission. The Commission requires this information in a timely fashion to coordinate service with DSNY.

Sincerely,

A handwritten signature in black ink that reads "Daniel D. Brownell". The signature is written in a cursive, flowing style.

Daniel D. Brownell
Commissioner and Chair
