Record of Variance Action for July 14, 2020 Public Meeting

This variance allows the Correctional Health Services to use either interferon gamma release assays (IGRA) or tuberculin skin test (TST) for tuberculosis screening, and to exempt from repeat screening those prisoners who have a documented negative test in the six months prior to their admission.

Type of Variance: Limited

Date on which variance will commence: July 15, 2020

Time period, if any: Six months, ending January 15, 2021

Minimum Standard for which Variance is Granted: 3-04(b)(2)(v)(A)

Date on which Board of Correction first approved variance (for renewals only):
July 22, 2013

Requirements imposed as conditions on variance: None
