⁴ For ESH, Overall Length of Stay by release reason is not available for this reporting period because the historical data needed for this data point is still being collected.

⁵ Lengths of stay are calculated by averaging individual Young Adults' accumulated time in each level, regardless of the chronological progression of the Young Adult through various levels. Days are only added to each Young Adult's cumulative level total if the stay in a given level has concluded. For example, if at the time of reporting a Young Adult is currently on his 10th day in Level 1 after spending 30 days in ESH Entry, only the 30-day stay in the Entry Unit is included in the Young Adult's record, as the stay in Level 1 is active as of the reporting period close. Records are only included for Young Adults placed in ESH after March 1, 2017, upon the formalization of the Entry Unit.

⁶ Time in Program is calculated only for inmates who were still in the unit on 9/1/17. The records are only included for Young Adults placed in ESH after March 1, 2017, upon the formalization of the Entry Unit
