³ Time in program min, max, median, and average by phase/level is unable to be produced at this time. The Department will need approximately three months before it can begin to provide this data.

⁴ Lengths of stay are calculated by averaging individual Young Adults' accumulated time in each level, regardless of the chronological progression of the Young Adult through various levels. Records are only included for Young Adults who have been released from ESH or Secure.

⁵ This category refers to ESH before the level system was implemented.
