**WHEN:** MONDAY --- JANUARY 27, 2020  
**TIME:** 6:30 PM  
**WHERE:** BUSHWICK INLET PARK FACILITY  
86 KENT AVENUE  
BROOKLYN, NY 11249  
(at North 9 Street)

---

### AGENDA:

- 1.) Presentation: Ericsson Playground - This project will completely renovate Ericsson Playground, a jointly operated playground adjacent to McCarren Park and Middle School 126/John Ericsson Middle School. The park design connects the two greenest areas of the site, the existing native garden classroom to the existing grove of trees, by way of a meandering green ribbon or nature trail. The nature trail organizes the site and defines three primary sports and activity areas; a flexible field and running track, two

intermediate basketball courts and outdoor fitness area, and a unique climbing feature called the “Tree House.” - by Mary Salig-Hussain, North Brooklyn Park Director, Parks Department.

- 2.) Presentation: Marcy Park - The project is a redesign of the three parcels of Marcy Green Park. The design includes a dog run, seating, game tables, a water feature, expanded planting, and a lawn area for sitting. – by Mary Salig-Hussain, North Brooklyn Park Director, Parks Department.
- 3.) Presentation: Bushwick Inlet Park: Motiva - This project will reconstruct the Motiva Parcel of Bushwick Inlet Park as a passive linear park with a waterfront esplanade. The intent of the Motiva project is to stabilize the water’s edge, remediate the site and develop the upland portions of the site for public access via a passive landscaped park, which will link future phases of Bushwick Inlet Park. To engage visitors, a series of passive programmatic elements including a continuous accessible esplanade, a variety of seating options, and an accessible get-down and sand getdown/kayak launch are proposed. - by Mary Salig-Hussain, North Brooklyn Park Director, Parks Department.
- 4.) Presentation: Ten Eyck Plaza - This project will reconstruct Ten Eyck Plaza between Ten Eyck Street and Stagg Street in the neighborhood of Williamsburg, Brooklyn. The scope includes new play equipment, water play, paving, seating, and supplemental planting. The existing entrance gates and concrete piers will remain, while the 7' high steel perimeter fence will be replaced with a 4' high steel fence to better establish the visual connection from adjacent sidewalks. – by Mary Salig-Hussain, North Brooklyn Park Director, Parks Department.
