EXECUTIVE ORDER #6/09

TO: Distribution
FROM: Robert D. LiMandri 
DATE: September 23, 2009
SUBJECT: IMPLEMENTATION OF LOCAL LAW 8 OF 2009

Effective: Immediately

Specifics:

Local Law 8 of 2009, effective February 15, 2009, requires contractors performing certain work to have safety registration numbers beginning October 1, 2009. Specifically, a safety registration number is required for individuals and entities filing an application for a new building permit, certain alteration permits, or the placement of a minimum of 2,000 cubic yards of concrete in connection with excavations, foundations or superstructures, including steel structures.

Local Law 8 requires safety registration applicants to submit certain contact and business information to the Department. It also requires contractors to keep a list of subcontractors' contact information and special inspections reports at the site and make them available to the Department on request.

In order to accommodate the anticipated volume of registration applicants in the coming weeks, the Department is extending the deadline for the requirement of a safety registration number from October 1 to December 1, 2009.
