

# Report of Materials and Equipment Acceptance Division

NYC Department of Buildings  
280 Broadway, New York, NY 10007  
Patricia Lancaster, FAIA, Commissioner  
(212) 566-5000, TTY: (212) 566-4769

Pursuant to Administrative Code Section 27-131, the following equipment or material has been found acceptable for use subject to the terms and conditions contained herein.

### MEA 120-93-E Vol.3

- Manufacturer:** Altronix Corporation, 140 58<sup>th</sup> Street, Brooklyn, New York 11220.
- Trade Name(s):** Hochiki America Corp., 7051 Village Drive Suite 100, Buena Park, CA 90621.
- Product:** Power Supplies for Fire Alarm Signaling.
- Pertinent Code Section(s):** Subchapter 17, and Reference Standard RS 17.
- Prescribed Test(s):** UL 603, UL 1481.
- Laboratory:** Underwriters Laboratories, Inc.
- Test Report(s):** Multiple Listing File No. S8680, issued January 27, 2005, revised February 8, 2005.

**Description** – The Hochiki FN-400ULX-G, FN-400ULX-R, FN-400ULX-C, and the FN-400ULX-B are 12/24 V multipurpose power supplies used with Fire Protective Signaling Systems. The above mentioned power supplies are identical to the Altronix Corporation AL400ULX except for cosmetic changes. These units are designed to charge sealed lead acid type rechargeable batteries and are designed to provide power with a max resistive load of 4 A at 12V or 3 A at 24V.

Basically Listed for Altronix Model No.	Multiple-Listed Hochiki-America Model No.	Description
AL400ULX	FN-400ULX-R/C/G/B	12V or 24V power supply/battery chargers

**Terms and Conditions:** That the above units be accepted on condition that all uses, locations and installations comply with New York City Building Code, specifically Subchapter 17, and with the Reference Standards RS 17-3 through 17-3C, inclusive as applicable including the NFPA as appropriate, the UL Listing, manufacturer's instructions, the Fire Prevention Directives, and with the Electrical Code of the City of New York, and on further condition that:

1. The installation and operation of all equipment and devices listed herein shall comply with Fire Department Rule 3RCNY 17-01 and NFPA 71-1989, when used as a central office control communicator/transmitter. The equipment shall have the capability of transmitting separate and distinct signals to indicate manual pull station alarm, automatic smoke/heat detection alarm, sprinkler waterflow alarm and supervisory signal and trouble indications.
2. The connection of security/burglar devices and equipment to that submitted for acceptance as fire alarm usage shall under this MEA application be prohibited within New York City. Such equipment and devices shall be permanently labeled.

All shipments and deliveries of such equipment shall be provided with a metal tag, suitably placed, certifying that the equipment shipped or delivered is equivalent to that tested and acceptable for use, as provided in Section 27-131 of the Building Code.

Final Acceptance April 6, 2006
