Pursuant to Administrative Code Section 27-131, the following equipment or material has been found acceptable for use subject to the terms and conditions contained herein.

**MEA 172-07-M**

**Manufacturer:** Mehler Texnologies GmbH, Edelzeller Str. 44, 36043 Fulda, GERMANY

**Trade Name(s):** Valmex

**Product:** PVC-coated fabric for flex sign

**Prescribed Test(s):** RS 7-3 (NFPA 701 Test Method 2)

**Laboratory:** Diversified

**Test Report(s):** Diversified test report # 5467, dated October 3, 2005

**Description:** Flame-retardant vinyl polyester fabric, Valmex 7520 Mesh Plus FR, is a flex sign material. The material has an acrylic coated front and back. The product is used in the print industry for banners, signs and billboards.

**Terms and Conditions:** The above material is accepted as meeting the flame resistance requirements of Sections 27-506 and 27-507 of the New York City Building Code for use as flex signs, with the following conditions:

1. The acceptance of this material is limited to flame resistance only.

2. Structural and other requirement shall be in accordance with pertinent Building Code provisions and Technical Policy and Procedure Notice #11/99.
3. All installations, uses and locations shall be in accordance with the New York City Building Code, specifically with Sections 27-499 and 27-501, and the New York City Zoning Resolution.

4. All shipments and deliveries of such materials shall be provided with a label, certifying that the materials shipped or delivered are equivalent to those tested and acceptable for use, as provided in Section 27-131 of the New York City Building Code.

Final Acceptance  June 13, 2007
