Pursuant to Administrative Code Section 27-131, the following equipment or material has been found acceptable for use subject to the terms and conditions contained herein.

**MEA 258-07-E**

**Manufacturer:** Lennox Industries Inc.  
512 Lennox Road  
Stuttgart, Arkansas  72160

**Trade Name(s):** Lennox

**Product:** Single-packaged, rooftop electric cooling / gas heating units  
MEA Index #20-30 – Air Conditioning Equipment

**Pertinent Code Section(s):** 27-770, 27-777, 27-800, RS 14-2 (ANSI Z223.1)

**Prescribed Test(s):** RS 13-11B (ANSI B9.1), RS 13-11 (UL 465, UL 1995)

**Laboratory:** CSA International  
ETL Testing Laboratories, Inc.

**Test Report(s):** CSA Test Report #1668567.  
ETL Testing Report #3080922-001.

**Description:** Single-packaged, rooftop electric cooling / gas heating units, **Series TGA**, designed for outdoor installation and residential use only. Units are suitable for downflow or horizontal configuration. Cooling section is comprised of compressor, air-cooled condenser and evaporator, and control valves. Heating section is comprised of burner, heat exchanger assembly, spark electrode assembly, ignition control and temperature controls. All models are for use on combustible type floors when mounted on Lennox adapter floors. Models are suitable for use with Lennox outside air damper, economizer and power exhaust. Units, with model numbers and cooling and heating capacities, are listed on the following page.

**Note:** Units shall be installed on non-combustible flooring. Minimum installed clearances from combustible construction shall be as follows: Top – unobstructed; front – 36 inches; back, left and right sides – 1 inch.

**Terms and Conditions:** The above-described single-packaged cooling and heating units are accepted with the following conditions:

1. Units shall be installed outdoors.

2. Units shall use only Refrigerant R-410A and natural gas only.

3. A tag must be permanently affixed to the equipment stating that if installed in New York City within 100 feet of any dwelling unit window, there shall be compliance with all provisions of Section 27-770 as to maximum sound levels permitted for exterior mechanical equipment.

4. Approval of all electrical equipment, apparatus, materials and devices shall be obtained from the Department’s Electrical Advisory Board before installation.

5. Units shall be used in compliance with the Energy Conservation Construction Code of New York State.

6. All shipments and deliveries of such equipment shall be provided with a metal tag, suitably placed, certifying that the equipment shipped or delivered is equivalent to that tested and accepted for use, as provided in Section 27-131 of the New York City Building Code.

**Note:** In accordance with Section 27-131(d), all materials tested and accepted for use shall be subject to periodic retesting as determined by the Commissioner; and any material which upon retesting is found not to comply with Code requirements or the requirements set forth in the approval of the Commissioner shall cease to be acceptable for the use intended. During the period for such retesting, the Commissioner may require the use of such material to be restricted or discontinued if necessary to secure safety.

Final Acceptance: August 14, 2008
