Terms and Conditions: The above-described gas-fired hot water boilers shall be approved with the following conditions:

1. Boilers are to be constructed in accordance with RS 14-4 (ASME Code).

2. Units shall be installed as per clearances to combustible construction. Minimum installed clearances shall be: Top – 8.66 inches; side – 1.77 inches; front – 17.72 inches; bottom – 9.84 inches.

3. Units shall be fired with natural gas only.

4. Approved gas vent shall be in accordance with Subchapter 15 and Section 27.886 of the New York City Building Code.

5. This acceptance in no way includes the external piping, connections and appurtenances thereto, which are required for operation of the boiler but are not a part of this application.

6. Approval of all electrical equipment, apparatus, materials and devices shall be obtained from the Department’s Electrical Advisory Board before installation.

7. All shipments and deliveries of such equipment shall be provided with a metal tag, suitably placed, certifying that the equipment shipped or delivered is equivalent to that tested and accepted for use, as provided in Section 27-131 of the New York City Building Code.

Note: In accordance with Section 27-131(d), all materials tested and accepted for use shall be subject to periodic retesting as determined by the Commissioner; and any material which upon retesting is found not to comply with Code requirements or the requirements set forth in the approval of the Commissioner shall cease to be acceptable for the use intended. During the period for such retesting, the Commissioner may require the use of such material to be restricted or discontinued if necessary to secure safety.
