Terms and Conditions: The above-described electric, commercial deep fryers are approved under the following conditions:

1. Units shall be installed in accordance with manufacturer’s instructions, New York City Building and New York City Electrical Code requirements.

2. Units shall be installed under hoods that vent to the outside, comply with Reference Standards RS 13, 13-2 and 13-3, are fitted with open heads that are capable of simultaneous discharge and manual release. The fire suppression system, exclusively used for cooking equipment, shall be filed with the New York City Buildings Department and examined and approved by the Fire Department.

3. For grease removal, suitable baffle type grease filters, MEA-approved, shall be installed in the exhaust duct.

4. Installation shall not obstruct access for operation and servicing.

5. Approval of all electrical equipment, apparatus, materials and devices shall be obtained from the Department’s Electrical Advisory Board before installation.

6. Units shall be used in compliance with the Energy Conservation Construction Code of New York State.

7. All shipments and deliveries of such equipment shall be provided with a metal tag, suitably placed, certifying that the equipment shipped or delivered is equivalent to that tested and accepted for use, as provided in Section 27-131 of the New York City Building Code.

Final Acceptance: April 14, 2008
