Note: 1. Installed clearances to combustible construction shall be in accordance with RS 14-15 of the Building Code.

Terms and Conditions: The above described residential water heaters installed as per clearances to combustible construction specified above, be accepted, when fired by natural gas only, under the following conditions:

1. Heaters shall not be installed in any enclosed space with a volume of less than 100 cubic feet.

2. All shipments and deliveries of such equipment shall be provided with a metal tag, suitably placed, certifying that the equipment shipped or delivered is equivalent to that tested and acceptable for use, as provided in Section 27-131 of the Building Code.

3. Approval of all electrical equipment, apparatus, materials and devices shall be obtained from the Bureau of Electrical Control before installation.

Final Acceptance March 17, 2006
Examined by Sean Doherty
