Recommendation - That the above valve be accepted on condition that all uses, locations, and installations comply with the New York City Building Code, specifically Subchapter 17, and with the Reference Standard RS 17-2, the UL Listing, the manufacturer's instructions, the Fire Prevention Directives and on further condition that:

1. Installation shall comply with all applicable New York City codes, rules, regulations and testing requirements in particular with the requirements of Subchapter 17 and RS 17-2 of the Administrative Code.
2. Underwriters Laboratories Inc.'s listing requirements and limitations shall be adhered to.
3. Manufacturer's installation, maintenance procedures and limitations shall be complied with.

All shipments and deliveries of such equipment shall be provided with a metal tag, suitably placed, certifying that the equipment shipped or delivered is equivalent to that tested and acceptable for use, as provided for in Section 27-131 of the Building Code.

Final Acceptance March 14, 2003
