DEPARTMENT OF BUILDINGS

Pursuant to Administrative Code Section 27-131, the following equipment or material has been found acceptable for use in accordance with the Report of Materials and Equipment Acceptance (MEA) Division.

Patricia J. Lancaster, F.A.I.A., Commissioner
MEA 401-03-M

Report of Material and Equipment Acceptance Division

Manufacturer – Dimension Millwork, 802 San Fernando, San Antonio, Texas 78207.

Trade Name(s) – Architectural Millwork.

Product - Fire rated wood door and door frame, 1 1/2 hour rated.

Pertinent Code Section(s) - 27-329, 27-342.

Prescribed Test(s) - RS 5-6 (ASTM E152).

Laboratory – Omega Point Laboratories Inc.

Test Report(s) – Omega Point Project No. 8614-103256 dated May 11, 1998.

Description - This product is a double fire door set with astragal using wood architectural doors, produced by laminating various veneers and pieces of assorted hardwoods onto a mineral core. The door is made in various approved styles. The doors are approved for use with a Min. Latch Throw of 3/4 in. Max. approved door dimensions are 3 ft. 6 in. wide by 9 ft. tall. All door sets and doors of a lesser dimension are provided, assuming the width of the stiles and rails is not decreased.

Doorframe, produced by laminating various veneers and pieces of assorted hardwoods onto a mineral core. Max. approved frame inside dimensions 1 s7 ft. wide by 9 ft. tall. All frames of a lesser dimension are approved, assuming their construction is in accordance with this directory.

Fire door frames of the hollow metal or steel channel types as described in UL File R18437 in the following sizes and types:

Recommendation - That the above described doors and door frames, which shall be operated by an approved fusible link or other New York City approved automatic closing mechanism, be accepted as providing 1 1/2 hours fire protection rating when installed in accordance with Reference Standard RS 5-8 for Class B openings, on condition that the certificates or labels accompanying all shipments shall be provided by the testing service which shall be regularly engaged by the manufacturer to make periodic inspections and/or tests of the doors in the course of their manufacture. All shipments and deliveries of the materials shall, in addition, be accompanied by a metal tag certifying that the materials shipped or delivered are equivalent to those tested and acceptable for use, as provided for in Section 27-131 of the Building Code.

Final Acceptance April/30/04
