© 2020 New York City Department of Buildings
This presentation will utilize case studies to review accessibility requirements in new residential buildings as required by the 2014 NYC Building Code and ICC/ANSI A117.1.

The presentation will cover construction requirements for accessible features in areas of common use and within dwelling units. In addition to the requirements of the Building Code, Code referenced standards will be identified, as well as a review of the required quantity of accessible dwelling units within a new residential building.

Building Blocks of Accessibility: ICC A117.1 304 Turning Space

Q1. Is turning space required in all rooms and spaces?
A1. No. Turning space is required in certain spaces, such as toilet and bathing facilities, dressing and fitting rooms, and transient lodging guest rooms. Unless addressed by a specific requirement for turning space in the standards, other spaces are not required to provide them, including lobbies, offices, and meeting rooms.

Q2. Can clear floor/ground space or turning space overlap other space requirements?
A2. Yes, clear floor or ground spaces and turning space can overlap other required clearances, including other clear floor spaces, door maneuvering clearances, and fixture clearances.

NOTE: ICC A117.1 603.2.2 Door Swing. Doors shall not swing into the clear floor space or clearance for any fixture. – This applies to common use bathrooms.

Accessible Route: PLATFORM LIFTS

BC 1109.7 Lifts.

Note: Platform (wheelchair) lifts are generally not permitted to be part of a required accessible route in new construction except under certain specific circumstances. If platform lifts are permitted they shall be installed in accordance with NYC BC Chapter 30, Section 410 (Platform Lifts) of ICC A117.1 and ASME A 18.1.

- The allowable uses for lifts for accessibility are:
  1. Performance area in Group A
  2. Wheelchair spaces in assembly area
  3. Spaces not open to the public with no more than 5 occupants
  4. Within dwelling units
  5. Courtroom uses (interior only)
  6. Existing exterior sites with size constraints; refer to BB 2016-08
  7. Amusement rides
  8. Play structures or soft contained play structures.
  9. Team or player seating areas serving areas of sport activity

Accessible Common Spaces: PARKING

Q1. If only one space is required, must a van space be provided?

A1. Yes. Refer to BC 1106.5, which states: “For every six or fraction of six accessible parking spaces, at least one space shall be a van-accessible parking space.”
ACCESSIBILITY IN RESIDENTIAL BUILDINGS

Accessible Common Spaces: PARKING

Q2. Can two parking spaces share a common access aisle?

A2. Two parking spaces shall be permitted to share a common access aisle. 502.4.2 Width. Access aisles serving car and van parking spaces shall be 60 inches minimum in width.
ACCESSIBILITY IN RESIDENTIAL BUILDINGS

Accessible Common Spaces

Recreational Facilities

EXAMPLES: Fitness Rooms, Swimming Pools, Bicycle Storage

- At least one of each type of recreational facility must be connected by an accessible route.
- New York City 2014 NYC Building Code - ICC A117.1 1109.1.1 Swimming pools.

At least two accessible means of entry shall be provided for swimming pools. Accessible means of entry shall be swimming pool lifts complying with Section 1109.2; sloped entries complying with Section 1109.3; transfer walls complying with Section 1109.4, transfer systems complying with Section 1109.5; and pool stairs complying with Section 1109.6. (At least one accessible means of entry provided shall comply with Section 1109.2 be swimming pool lifts or 1109.3 sloped entries).

ACCESSIBILITY IN RESIDENTIAL BUILDINGS

Alters and Accessibility

- §28-101.4.3 Optional use of the 1968 building code for work on prior code buildings. At the option of the owner, and subject to applicable provisions of this code, work on prior code buildings may be performed in accordance with the requirements and standards set forth in the 1968 building code, or where the 1968 code so authorizes, the code in effect prior to December 6, 1968. Exceptions.

- §28-105.4.2.1 Definitions.

- MINOR ALTERATIONS. Minor changes or modifications in a building or any part thereof, excluding additions thereto, that do not in any way affect health or the fire or structural safety of the building or the safe use and operation of the service equipment therein. Minor alterations shall not include any of the work described as "work not constituting minor alterations or ordinary repairs."

- ORDINARY REPAIRS. Replacements or renewals of existing work in a building, or of parts of the service equipment therein, with the same or equivalent materials or equipment parts, that are made in the ordinary course of maintenance and that do not in any way affect health or the fire or structural safety of the building or the safe use and operation of the service equipment therein. Ordinary repairs shall include the repair or replacement of any plumbing fixture, piping, or faucets from any exposed stop valve to the inlet side of a trap. Ordinary repairs shall not include any of the work described as "work not constituting minor alterations or ordinary repairs."

- WORK NOT CONSTITUTING MINOR ALTERATIONS OR ORDINARY REPAIRS. Minor alterations or ordinary repairs shall not include:
  - The addition, rearrangement, relocation, removal or replacement of any parts of the building affecting loading or exit requirements, or light, heat, ventilation, or elevator requirements or accessibility requirements, or any fire suppression...
Alterations and Accessibility

- Exhaustive list of mandatory alterations and accessibility requirements.
- Exceptional cases and exclusions.

Ordinary Repairs

- Replacement or renewal of existing work in a building, or of parts of the service equipment therein, with the same or equivalent materials or equipment parts, that are made in the ordinary course of maintenance and that do not in any way affect health or the fire or structural safety of the building or the safe use and operation of the service equipment therein. Ordinary repairs shall include the repair or replacement of any plumbing fixture, piping or faucets from any exposed stop valve to the inlet side of a trap. Ordinary repairs shall not include any of the work described as “work not constituting minor alterations or ordinary repairs.”

Work Not Constituting Minor Alterations or Ordinary Repairs

- Minimal alterations or ordinary repairs shall not include:
- The addition, rearrangement, relocation, removal or replacement of any parts of the building affecting loading or exit requirements, or light, heat, ventilation, or elevator requirements or accessibility requirements, or any fire suppression...
What needs to be accessible and where?

- 1107.1 General. In addition to the other requirements of this chapter, occupancies having dwelling units or sleeping units shall be provided with accessible features in accordance with this section.

  - INTENDED TO BE OCCUPIED AS A RESIDENCE. This refers to a dwelling unit or sleeping unit that can or will be used all or part of the time as the occupant's place of abode.
  - Multiple Dwelling Law: Class A; Class B
  - BC Chapter 11: Accessible; Type B+NYC; Type B
  - (NYC Interpretation of “Residence” differs from that contained in the IBC)
Accessibility in Residential Buildings
SCOPING
ACCESSIBILITY IN RESIDENTIAL BUILDINGS: Scoping

Dwelling Unit (Accessibility)
For the purposes of Chapter 11 and applicable appendices: A single unit providing complete, independent living facilities for one or more persons, including permanent provisions for living, sleeping, eating, cooking and sanitation.

"example: garage conversion" by citymaus is licensed under CC PDM 1.0
ACCESSIBILITY IN RESIDENTIAL BUILDINGS: Scoping

Sleeping Unit (Accessibility)
For the purposes of Chapter 11 and applicable appendices: A room or space in which people sleep, which can also include permanent provisions for living, eating, and either sanitation or kitchen facilities but not both. Such rooms and spaces that are also part of a dwelling unit are not sleeping units.

ACCESSIBILITY IN RESIDENTIAL BUILDINGS: Scoping

Three Levels of Accessible Units

- **Accessible Units**: A dwelling unit or sleeping unit that complies with this Code and the provisions for Accessible units in ICC A117.1.

- **Type B+NYC Units**: A dwelling unit or sleeping unit designed and constructed for accessibility in accordance with this Code, Section 1004 (Type B Units) of ICC A117.1 as modified by Sections 1107.2.1 through 1107.2.8, and Appendix P of this Code.

- **Type B Units**: A dwelling unit or sleeping unit designed and constructed for accessibility in accordance with this Code and the provisions for Type B units in ICC A117.1, consistent with the design and construction requirements of the federal Fair Housing Act.

**TYPE:** Accessible
ACCESSIBILITY IN RESIDENTIAL BUILDINGS: Scoping

Group R-1: Accessible Dwelling & Sleeping Units

1107.6.1 Group R-1. In structures with four or more dwelling units or sleeping units intended to be occupied as a residence, every dwelling unit and sleeping unit intended to be occupied as a residence not required to be an Accessible unit shall be a Type B+NYC unit unless the number of Type B+NYC units is permitted to be reduced in accordance with Section 1107.7.4. Where no Type B+NYC units are required per Section 1107.7.4, all units not required to be Accessible units shall be Type B units.

**EXCEPTION:** The number of Type B units is permitted to be reduced in accordance with Section 1107.7.
Group R-1: Accessible Dwelling & Sleeping Units

1107.6.1 Group R-1. In structures with four or more dwelling units or sleeping units intended to be occupied as a residence, every dwelling unit and sleeping unit intended to be occupied as a residence not required to be an Accessible unit shall be a Type B+NYC unit unless the number of Type B+NYC units is permitted to be reduced in accordance with Section 1107.7.4. Where no Type B+NYC units are required per Section 1107.7.4, all units not required to be Accessible units shall be Type B units.

EXCEPTION: The number of Type B units is permitted to be reduced in accordance with Section 1107.7.
ACCESSIBILITY IN RESIDENTIAL BUILDINGS: Scoping

Group R-1: Accessible Dwelling & Sleeping Units

1107.7.4 General exceptions for Type B+NYC units. Where specifically permitted by Sections 1107.5 and 1107.6, the required number of Type B+NYC units is permitted to be reduced in accordance with Section 1107.7.4.1.
ACCESSIBILITY IN RESIDENTIAL BUILDINGS: Scoping

Group R-1: Accessible Dwelling & Sleeping Units

1107.7.4.1 Buildings or structures without elevator service where Type B+NYC units are required. In buildings or structures where no elevator service is provided or required by other sections of this Code, only the dwelling units and sleeping units that are located on stories indicated in Section 1107.7.4.1.1 are required to be Type B+NYC units.

1107.7.4.1.1 Units located in the cellar, basement, or first floor. In buildings or structures where the lowest story containing dwelling or sleeping units is the cellar, basement, or first floor, at least one such story containing dwelling or sleeping units, regardless of intent to occupy as a residence, shall be provided with an accessible entrance and accessible route from the exterior of the building or structure and all units on that story, regardless of intent to occupy as a residence, shall be Type B+NYC units. Where no dwelling units or sleeping units are located in the cellar, basement, or first floor, Type B units shall be provided where required by Section 1107.7.1 through 1107.7.3.
ACCESSIBILITY IN RESIDENTIAL BUILDINGS: Scoping

Group R-1: Accessible Dwelling & Sleeping Units

1107.7.4.1 Buildings or structures without elevator service where Type B+NYC units are required. In buildings or structures where no elevator service is provided or required by other sections of this code, only the dwelling units and sleeping units that are located on stories indicated in Section 1107.7.4.1 are required to be Type B+NYC units.

1107.7.4.1.1 Units located in the cellar, basement, or first floor. In buildings or structures where the lowest story containing dwelling or sleeping units is the cellar, basement, or first floor, at least one such story containing dwelling or sleeping units, regardless of intent to occupy as a residence, shall be provided with an accessible entrance and accessible route from the exterior of the building or structure and all units on that story, regardless of intent to occupy as a residence, shall be Type B+NYC units. Where no dwelling units or sleeping units are located in the cellar, basement, or first floor, Type B units shall be provided where required by Section 1107.7.1 through 1107.7.3.
ACCESSIBILITY IN RESIDENTIAL BUILDINGS: Scoping

Group R-1: Accessible Dwelling & Sleeping Units

1107.7 General exceptions for Type B units. Where specifically permitted by Section 1107.6, the required number of Type B units is permitted to be reduced in accordance with Sections 1107.7.1 through 1107.7.3.

1107.7.1 Structures without elevator service where Type B units are required. Where no elevator service is provided in a structure or required by other sections of this Code, only the dwelling units and sleeping units that are located on stories indicated in Sections 1107.7.1.1 and 1107.7.1.2 are required to be Type B units.
Group R-1: Accessible Dwelling & Sleeping Units

1107.7 General exceptions for Type B units. Where specifically permitted by Section 1107.6, the required number of Type B units is permitted to be reduced in accordance with Sections 1107.7.1 through 1107.7.3.

1107.7.1 Structures without elevator service where Type B units are required. Where no elevator service is provided in a structure or required by other sections of this code, only the dwelling units and sleeping units that are located on stories indicated in Sections 1107.7.1.1 and 1107.7.1.2 are required to be Type B units.
ACCESSIBILITY IN RESIDENTIAL BUILDINGS: Scoping

Group R-1: Accessible Dwelling & Sleeping Units

1107.7.1.1 One story with Type B units required. At least one story containing dwelling units or sleeping units intended to be occupied as a residence shall be provided with an accessible entrance and accessible route from the exterior of the structure and all units intended to be occupied as a residence on that story shall be Type B units.

SCOPING: Group R-1: Accessible Dwelling & Sleeping Units

EXAMPLE: 19 Story R-1 New Building
337 hotel rooms

REQUIRED: Accessible units – 12

(NOTE: BC Section 1107.6.1.3 requires accessible entrances at all units.)
ACCESSIBILITY IN RESIDENTIAL BUILDINGS: Scoping

Group R-2: Accessible Dwelling & Sleeping Units

1107.6.2 Group R-2. Type B+NYC units and Type B units shall be provided in occupancies in Group R-2 in accordance with Section 1107.6.2.1.

- 1107.6.2.1 Type B and Type B+NYC units. Every dwelling unit and sleeping unit shall be a Type B+NYC unit unless the number of Type B+NYC units is permitted to be reduced in accordance with Section 1107.7.4. Where no Type B+NYC units are required in accordance with Section 1107.7.4, all units intended to be occupied as a residence shall be Type B units.

- EXCEPTION: The number of Type B units is permitted to be reduced in accordance with Section 1107.7.
ACCESSIBILITY IN RESIDENTIAL BUILDINGS: Scoping

Group R-2: Accessible Dwelling & Sleeping Units

1107.6.2 Group R-2. Type B+NYC units and Type B units shall be provided in occupancies in Group R-2 in accordance with Section 1107.6.2.1.

- 1107.6.2.1 Type B and Type B+NYC units. Every dwelling unit and sleeping unit shall be a Type B+NYC unit unless the number of Type B+NYC units is permitted to be reduced in accordance with Section 1107.7.4. Where no Type B+NYC units are required in accordance with Section 1107.7.4, all units intended to be occupied as a residence shall be Type B units.

- EXCEPTION: The number of Type B units is permitted to be reduced in accordance with Section 1107.7.
ACCESSIBILITY IN RESIDENTIAL BUILDINGS: Scoping

Group R-2: Accessible Dwelling & Sleeping Units

EXAMPLE: 36 Story R-2 New Building
213 apartments

REQUIRED: Accessible units – 0
Type B+NYC units – 213
ACCESSIBILITY IN RESIDENTIAL BUILDINGS: Scoping

Group R-3: Accessible Dwelling & Sleeping Units

1107.6.3 Group R-3. In Group R-3 occupancies where there are four or more dwelling units or sleeping units intended to be occupied as a residence in a single structure, every dwelling unit and sleeping unit intended to be occupied as a residence shall be a Type B unit.

EXCEPTION: The number of Type B units is permitted to be reduced in accordance with Section 1107.7.
ACCESSIBILITY IN RESIDENTIAL BUILDINGS: Scoping

Group R-3: Accessible Dwelling & Sleeping Units

INTERPRETATION
An existing 2-family R-3 building did not trigger the accessibility requirements of the Prior Code, or Fair Housing.
ACCESSIBILITY IN RESIDENTIAL BUILDINGS: Scoping

Group R-3: Accessible Dwelling & Sleeping Units

INTERPRETATION

An existing 2-family R-3 building did not trigger the accessibility requirements of the Prior Code, or Fair Housing.

Q. When a new R-3 is built, attached to a party wall, must it comply?
ACCESSIBILITY IN RESIDENTIAL BUILDINGS: Scoping

Group R-3: Accessible Dwelling & Sleeping Units

INTERPRETATION

An existing 2-family R-3 building did not trigger the accessibility requirements of the Prior Code, or Fair Housing.

Q. When a new R-3 is built, attached to a party wall, must it comply?

A. **No** The text is intended to align with the FHA, which would not require accessibility where the dwellings are not constructed together.

1107.2.3 Type B+NYC unit kitchen and kitchenette. Where kitchens and kitchenettes are provided in the Type B+NYC dwelling unit or sleeping unit, the primary kitchen or kitchenette shall be constructed in accordance with the kitchen requirements of Section 1003.12 (Kitchen) of ICC A117.1 and Sections 1107.2.3.1 through 1107.2.3.5 of this code. Secondary kitchens and kitchenettes within the same dwelling unit or sleeping unit shall be required to comply only with Section 1004.12 (Kitchens) of ICC A117.1.

1107.2.3.1 Kitchen counters. A kitchen counter that is required to comply with Section 1003.12.3.2 or 1003.12.4.2 (Height) of ICC A117.1 shall be permitted to be adjustable or designed to be replaceable as a unit at variable heights between 29 inches and 36 inches (737 mm and 914 mm), measured from the floor to the top of the work surface. The owner shall adjust or replace such countertop at the time a person with physical disabilities takes occupancy of the unit, or within 10 days of the date the request is made by a person with physical disabilities, whichever is later, at the owner’s expense.

1107.2.2 Type B+NYC unit toilet and bathing rooms. Where toilet and bathing rooms are provided in the Type B+NYC dwelling unit or sleeping unit, all such toilet and bathing rooms shall comply with Appendix P.

Exception for Type A toilet and bathing room:
1. Where at least one toilet and bathing room in the Type B+NYC dwelling unit or sleeping unit is constructed in accordance with the Type A toilet and bathing facilities requirements of Section 1003.11 (Toilet and Bathing Facilities), including Section 1003.3.2 (Turning Space), of ICC A117.1 and is in compliance with the following:
   1.1. At least one lavatory, one water closet and either a bathtub or shower within such toilet or bathing facility shall comply with Section 1003.11 of ICC A117.1. Such toilet and bathing fixtures shall be in a single toilet or bathing area, such that travel between fixtures does not require travel beyond the area in which the fixtures of such toilet or bathing room are located.
   1.2. Toilet paper dispensers within such rooms shall comply with Section 604.7 (Dispensers) of ICC A117.1.
   1.3. Medicine cabinets, if provided, must include a storage shelf no higher than 44 inches (1118 mm) above the floor.
2. Where at least one toilet and bathing room complying with Sections 1003.11 and 1002.3.2 of ICC A117.1 is provided within the Type B+NYC dwelling unit or sleeping unit in accordance with Item 1 of this exception, other toilet and bathing rooms in the same unit shall be required to comply only with Sections 1004.3 (Accessible route), 1004.4 (Walking Surfaces), 1004.5.2 (User Passage Doorways), 1004.9 (Operable Parts) and 1004.11.1 (Grab Bar and Shower Seat Reinforcement) of ICC A117.1. Doors and doorways to such toilet and bathing rooms shall be subject to Section 1107.2.1, Exception 5.
DWELLINGS: TOILET & BATHING ROOMS

1107.2.2 Type B+NYC unit toilet and bathing rooms. Where toilet and bathing rooms are provided in the Type B+NYC dwelling unit or sleeping unit, all such toilet and bathing rooms shall comply with Appendix P.

Exception for Type A toilet and bathing room:
1. Where at least one toilet and bathing room in the Type B+NYC dwelling unit or sleeping unit is constructed in accordance with the Type A toilet and bathing facilities requirements of Section 1003.11 (Toilet and Bathing Facilities), including Section 1003.3.2 (Turning Space), of ICC A117.1 and is in compliance with the following:
   1.1. At least one lavatory, one water closet and either a bathtub or shower within such toilet or bathing facility shall comply with Section 1003.11 of ICC A117.1. Such toilet and bathing fixtures shall be in a single toilet or bathing area, such that travel between fixtures does not require travel beyond the area in which the fixtures of such toilet or bathing room are located.
   1.2. Toilet paper dispensers within such rooms shall comply with Section 604.7 (Dispensers) of ICC A117.1.
   1.3. Medicine cabinets, if provided, must include a storage shelf no higher than 44 inches (1118 mm) above the floor.
2. Where at least one toilet and bathing room complying with Sections 1003.11 and 1002.3.2 of ICC A117.1 is provided within the Type B+NYC dwelling unit or sleeping unit in accordance with Item 1 of this exception, other toilet and bathing rooms in the same unit shall be required to comply only with Sections 1004.3 (Accessible route), 1004.4 (Walking Surfaces), 1004.5.2 (User Passage Doorways), 1004.9 (Operable Parts) and 1004.11.1 (Grab Bar and Shower Seat Reinforcement) of ICC A117.1. 608.3.1 Transfer-Type Showers. Grab bars for transfer-type showers shall comply with Section 608.3.1.

608.2.3.2 Seat. A folding seat complying with Section 610 shall be provided on the seat wall opposite the back wall.

EXCEPTION: A seat is not required to be installed in a shower for a single occupant, accessed only through a private office and not for common use or public use, provided reinforcement has been installed in walls and located so as to permit the installation of a shower seat.

NYC Buildings
1107.2.2 Type B+NYC unit toilet and bathing rooms. Where toilet and bathing rooms are provided in the Type B+NYC dwelling unit or sleeping unit, all such toilet and bathing rooms shall comply with Appendix P.

Exception for Type A toilet and bathing room:
1. Where at least one toilet and bathing room in the Type B+NYC dwelling unit or sleeping unit is constructed in accordance with the Type A toilet and bathing facilities requirements of Section 1003.11 (Toilet and Bathing Facilities), including Section 1003.3.2 (Turning Space), of ICC A117.1 and is in compliance with the following:

1.1. At least one lavatory, one water closet and either a bathtub or shower within such toilet or bathing facility shall comply with Section 1003.11 of ICC A117.1. Such toilet and bathing fixtures shall be in a single toilet or bathing area, such that travel between fixtures does not require travel beyond the area in which the fixtures of such toilet or bathing room are located.

1.2. Toilet paper dispensers within such rooms shall comply with Section 604.7 (Dispensers) of ICC A117.1.
1.3. Medicine cabinets, if provided, must include a storage shelf no higher than 44 inches (1118 mm) above the floor.
2. Where at least one toilet and bathing room complying with Sections 1003.11 and 1002.3.2 of ICC A117.1 is provided within the Type B+NYC dwelling unit or sleeping unit in accordance with Item 1 of this exception, other toilet and bathing rooms in the same unit shall be required to comply only with Sections 1004.3 (Accessible route), 1004.4 (Walking Surfaces), 1004.5.2 (User Passage Doorways), 1004.9 (Operable Parts) and 1004.11.1 (Grab Bar and Shower Seat Reinforcement) of ICC A117.1. Doors and doorways to such toilet and bathing rooms shall be subject to Section 1107.2.1, Exception 5.

1107.2.8 Type B+NYC unit laundry equipment. Where washing machines or clothes dryers are provided within the Type B+NYC dwelling unit or sleeping unit, such equipment shall comply with Section 611 (Washing Machines and Clothes Dryers) of ICC A117.1 and shall be front loading. Laundry equipment in accessible common-use areas as required in Section 1107.3 shall comply with Section E105.2.

EXCEPTION:
At the option of the owner, laundry equipment conforming to this section within the dwelling unit or sleeping unit may be provided at the time a person with physical disabilities takes occupancy of the unit, or within 10 days of the date the request is made by a person with physical disabilities, whichever is later, at the owner’s expense. However, the owner shall not be responsible to provide a particular model or type of equipment provided such equipment complies with this section.
611.2 Clear Floor Space. A clear floor space complying with Section 305, positioned for parallel approach, shall be provided. For top loading machines, the clear floor space shall be centered on the appliance. For front loading machines, the centerline of the clear floor space shall be offset 24 inches (610 mm) maximum from the centerline of the door opening.
611.3 Operable Parts. Operable parts, including doors, lint screens, detergent and bleach compartments, shall comply with Section 309.
Clear Floor Space

1107.2.5 Type B+NYC multistory units. Multistory Type B+NYC dwelling units or sleeping units shall comply with the following:

1. One of the stories with an accessible entrance shall be designated as the primary entry story to the unit;
2. All rooms, spaces and doors on the primary entry story shall comply with Section 1107.2; and
3. Rooms, spaces or doors located on other than the primary entry story, and interior routes thereto, need not comply with Section 1107.2 where the primary entry story contains equivalent functional facilities. Functional facilities shall include cooking facilities, bathing facilities, laundry equipment, sleeping areas, living areas, dining areas, and outdoor areas such as balconies or terraces.

Exception: Functional facilities in compliance with Section 1107.2 need not be located on the primary entry story, but may be located on any story within the dwelling unit or sleeping unit, provided that all rooms, spaces and doors located on such story containing such functional facilities comply with Section 1107.2.

Notwithstanding the above, at least one toilet room complying with Section 1107.2.2 shall be provided on the primary entry story. In addition, one of the following conditions shall be met:

1. An accessible external elevator is provided to connect all such stories of the multistory dwelling unit or sleeping unit; or
2. A stairway complying with Section 504 (Stairways) of ICC A117.1 with a minimum clear width of 36 inches is provided within the multistory dwelling unit or sleeping unit to connect all such stories of the unit; or
3. An accessible route complying with Section 402 (accessible routes) of ICC A117.1 is provided within the dwelling unit or sleeping unit to connect all such stories of the unit.

DWELLINGS: DUPLEX

504.4 Tread Surface. Stair treads shall comply with Section 302 and shall have a slope not steeper than 1:18.

504.5 Nosings. The radius of curvature at the leading edge of the tread shall be 1/8 inch (13 mm) maximum. Nosings that project beyond nosers shall have the underside of the leading edge curved or beveled. Risers shall be permitted to slope under the tread at an angle of 30 degrees maximum from vertical. The permitted projection of the nosing shall be 1/8 inches (38 mm) maximum over the tread or floor below.
1107.4 Accessible route. At least one accessible route shall connect accessible building or facility entrances with the required accessible entrance(s) of each Accessible unit, Type B+NYC unit, and Type B unit within the building or facility and with those exterior and interior spaces and facilities that serve the units.

Exception:

Exterior spaces, including but not limited to roof terraces, exterior decks, patios or balconies that are part of Type B+NYC units or Type B units, that are not for public use or common use, that have impervious surfaces, and that are not more than 4 inches below the finished floor level of the adjacent interior space of the unit. Such roof terraces, decks, patios or balconies shall be designed so that accessibility can be readily provided, without modifications to the guard rail heights and structural supports, by the installation of a noncombustible ramp in compliance with Section 405 (Ramps) of ICC A117.1, or a noncombustible level platform, with removable panel for access to floor drainage, that is permeable to weather and in compliance with Section 302 (Floor Surfaces) and Section 303 (Changes in Level) of ICC A117.1.
1107.4 Accessible route. At least one accessible route shall connect accessible building or facility entrances with the required accessible entrance(s) of each Accessible unit, Type B+NYC unit, and Type B unit within the building or facility and with those exterior and interior spaces and facilities that serve the units.

Exception:

Exterior spaces, including but not limited to roof terraces, exterior decks, patios or balconies that are part of Type B+NYC units or Type B units, that are not for public use or common use, that have impervious surfaces, and that are not more than 4 inches below the finished floor level of the adjacent interior space of the unit. Such roof terraces, decks, patios or balconies shall be designed so that accessibility can be readily provided, without modifications to the guard rail heights and structural supports, by the installation of a noncombustible ramp in compliance with Section 405 (Ramps) of ICC A117.1, or a noncombustible level platform, with removable panel for access to floor drainage, that is permeable to weather and in compliance with Section 302 (Floor Surfaces) and Section 303 (Changes in Level) of ICC A117.1.

NOTE: As drawn, the guard is NOT 46" above balcony slab.
Primary Entrance – must be on an accessible route connecting with the accessible entrance(s) and common areas
