

SERVICE UPDATE

***NEW REQUIREMENT* for Alteration Type 1 Jobs – Total Building Square Footage**

On March 5, 2018, the Department of Buildings implemented **New Application Fees for New Buildings and Alteration Filings**. The number of stories, the total building square footage, project cost and the building type are required to calculate the new fees for New Building (NB) and Alteration Type 1 applications, including amendments and corrections.

Revised PW1 Form

In Section 5 of the PW1, 8F (Total Construction Floor Area) is now listed as a requirement for Alteration Type 1 and Alteration Type 1, OT 'No Work.' On March 27, 2018 a new PW1 (Revised 4/18) will be released and field 8F will be renamed **Total Building Square Footage**. In eFiling, the building square footage is entered in the Cost Information section.

The **PW1** (Revised 3/18) will be accepted until April 29, 2018 provided that Section 8F is completed with the total building square footage. **Beginning on April 30, 2018, PW1 (Revised 4/18) will be the only version accepted.**

The total building square footage is not required for Alt 2 and Alt 3 applications.
