CN Number: _____

8 Statement and Signature

Falsification of any statement is a misdemeanor and is punishable by a fine or imprisonment, or both. It is unlawful to give to a city employee, or for a city employee to accept, any benefit, monetary or otherwise, either as a gratuity for properly performing the job or in exchange for special consideration. Violation is punishable by imprisonment or fine or both. I understand that if I am found after hearing to have knowingly or negligently made a false statement or to have knowingly or negligently falsified or allowed to be falsified any certificate, form, signed statement, application, report or certification of the correction of a violation required under the provisions of this code or of a rule of any agency, I may be barred from filing further applications or documents with the Department.

8A Applicant's Statement

The applicant, having been authorized by the owner of the premises, building or structure, hereby makes application for the approval of the use of the mobile crane, tower crane, self-erecting tower crane, dedicated pile driver, derrick described above to be used at the above mentioned site in accordance with the accompanying plans and specifications. I certify that the accompanying plans and specifications are in accordance with the New York City Construction Codes and other applicable laws and rules. Further, I certify that: (i) I have investigated the ground, subsurface, and site conditions, and have accounted for them in the accompanying plans and specifications; (ii) the loads, surcharges, and values indicated in the accompanying plans and specifications account for all conditions of loading, including wind; (iii) the equipment, including any footing, foundation, tie-in, or supporting element, in all proposed conditions of loading, including assembly/disassembly or traveling, will not exceed the bearing capacity of the ground or subsurface elements, or any footing, foundation, tie-in, or supporting element; (iv) the equipment, including any footing, foundation, tie-in, or supporting element, when secured and stowed in accordance with the submitted procedures will be able to sustain, without failure, the specified wind loads; and (v) the equipment, in all proposed configurations, including assembly/disassembly or traveling, will clear all site obstructions.
