Checklist: Pre-Permit
Emergency Backup Power Systems

Project Checklists contain project-specific details as they apply to the scope of work of the project to provide compliance with the NYC Construction Codes and other regulations.

☑ Construction Drawings
   Make sure the Department-approved drawings clearly convey the project scope of work and that the drawings align correctly with the contracted work.

☑ Scope Modification
   Verify if changes need an amendment.

☑ Insurance Requirements
   Comply with the insurance requirements for General Liability insurance, Workers Compensation and Disability insurance. When required, update the General Liability insurance.

☑ Special and Progress Inspections
   Confirm the Owner has hired the Special and/or Progress Inspection Agency and that the required inspection information has been submitted, which is required to obtain a work permit.
