

# UPCOMING CHANGE

## **DOB NOW: *Safety* Electronic Filing Registration**

---

In accordance with the technology enhancements outlined in our *Building One City* plan, the Department of Buildings is preparing to launch **DOB NOW: *Safety***, our new interactive web-based portal that will transform previously in-person and paper-based interactions into completely online experiences. Set to go live on September 12, 2016 for façade compliance filings, **DOB NOW: *Safety*** will allow licensed professionals and owners to submit their façade compliance filings online.

**What do you need to do to get ready for launch?**

### Professional Engineers, Registered Architects, and Licensees

You will need to sign up for [eFiling](#) through the Department's. Once you have been authenticated as a user, you will be able to file façade compliance filings in **DOB NOW: *Safety***. DOB staff will then be able to review documents electronically.

### Owners

To view all filings associated with your building, you will need to sign up as an owner in [eFiling](#) by selecting the "I do not have a license" option on the NYC Development Hub Enrollment Form. Once you receive verification that your account is active, you will be able to log in to **DOB NOW: *Safety*** to view information associated with your building.

**Post Until: INDEFINITELY**
