

THE CITY OF NEW YORK  
DEPARTMENT OF BUILDINGS

DEPARTMENTAL MEMORANDUM

DATE: September 22, 1982

TO: Chief Elevator Inspectors

FROM: *BFP* Blaise F. Parascandola  
Deputy Commissioner

SUBJECT: Teflon Wire in elevator shaft

-----  
This will confirm my directive concerning the above subject in connection with the installation of Local Law # 5 Class E alarm and communication systems. It shall be permitted to install teflon wire without conduit in elevator shafts provided measures are taken to prevent mechanical injury to the wire.

The provisions to install teflon wire without conduit extends to low voltage installations only.
