

FOR IMMEDIATE DISTRIBUTION

November 9, 1992

This Department has established the Fire Alarm Code Interpretation Advisory Committee to respond to all inquiries regarding the interpretation of Title 27 of the Administrative Code requirements for fire alarm systems.

The determinations and commentaries shall be published in the minutes of the committee's meeting. The adopted minutes shall be distributed to recognized professional and trade organizations involved in designing, manufacturing, installing and inspecting fire alarm systems. These determinations shall provide guidance concerning the Administrative Code requirements for the design and installation of fire alarm systems.

The determinations and commentaries contained in the minutes of the committee's meeting shall be advisory only and shall be explanatory of the general Administrative Code requirements and Department policy relating to the design and installation of fire alarm systems.
