POWER RISER DIAGRAM

QUESTIONS:

1. Are we allowed to install the fire pump service switch at
   fire pump room as shown on power riser diagram as per
   New York City Electrical Code Article 695.3(A)(1)?

2. Are we allowed to install the fire pump service switch
   outside the electrical room as shown on power riser
   diagram as per New York City Electrical Code Article
   695.4(B)(3)(4) be located as remote as practicable from
   other service disconnecting means with a minimum
   separation of 12"?

3. Does the New York City Electrical Code allow the fire
   pump service switch to be installed outside the electrical
   room?
