

SERVICE CHANGE

LAA Filings: Fire Stopping Requirements

Previously the Limited Alteration Application (LAA) Unit required one of the following comments on LAA applications:

- **Fire Stopping will not be compromised.**
- **Fire Stopping to be restored.**

With the new change, in all instances where the fire stopping has been restored, the License Master Plumber or Licensed Master Fire Suppression Contractor **must** upload into DOB NOW: *Inspections* a signed and sealed statement on company letterhead with the following information at the time of request for LAA sign-off:

- All compromised fire stopping as a result of the work filed under LAA (#xxxxxxx) has been restored to prior legal conditions as per Sections 713 of the NYC Building Code

For questions or additional information, please email inquiries to HubInspections@buildings.nyc.gov.
